Council May Take Over Tomorrow Redevelopment Agency Is a School Holiday

The introduction of a new city ordinance that would establish the City Council as the official redevelopment agency for Seaside came as a surprise move during a routine council meeting last week.

Councilman Gerald A. McGrath introduced the measure that would reduce the present Redevelopment Agency to a purely advisory capacity and would give the council all the powers of that agency in redevelopment matters.

McGrath's reason for such a move "is to centralize the government," he said, "when decisions will have to be made quickly and the council has to be in the know."

Mayou Louis N. Haddad, the only opponent to the move said he felt the council would incur the responsibility for a \$1.7 million bond issue for the Gateway Project.

He taken asked McGrath his reason for making such a move and wanted to know where else in California did a city council act as the redevelopment agency.

Interim City Attorney Donald H. Smith then pointed out that the nearby community of Salinas has had such a set up since the inception of its redevelopment program.

Haddad then corrected his statement and stated that he had known this all along, but, as far as he knew, they had made little or no progress under that kind of a system. McGrath then pointed out that Haddad planned to make the very same move years ago.

Haddad admitted he did consider it, "but," he added, "as I became more aware of my political responsibilities, I decided it would not be in the best interest of the people."

He stressed that such a decision must be put to a vote of the people before the council makes any move.

As the move to introduce the bill came to a vote, the mayor was the only council member to offer any opposition.

In scheduled action, the council received a report on the Gateway Project from Redevelopment Director Russell Hoss. The report was made at the request of Councilman McGrath.

McGrath in making the request asked Hoss just what was going on in the Gateway Project since we've got enough land in there for our own Kezar Stadium or Rose Bowl."

Hoss explained that a "gentlemen's agreement" existed between the agency and the automobile dealers that would allow only auto-oriented business into Gateway and until all commitments were taken care of nothing else could be done.

"We started the project with nine letters of intention," he went on, "but since then two of the dealers have gone out of business. We now have five dealers holding seven parcels."

When asked by McGrath what percentage of land in Gateway was in use, Hoss was unable to give any figures. McGrath then asked Hoss when the city could expect something from the dealers committee to Gateway.

Hoss replied, "My job doesn't require me to be a fortune teller." He went on to say that several of the dealers contracted, among them Graham Buick and Kendall Motors, are supposed to start building in 1971.

The second semester begins Monday, February 1. Teachers from the 22 elementary schools will be participating in a variety of inservice meetings and projects, which in the opinion of the principal will result in better teaching-learning experiences. Each principal has planned programs which he believes will be meaningful either to the entire faculty or specific events for different grades or subjects for smaller groups of teachers, or both.

At most elementary schools there also will be opportunity for teachers to change the room environment and make lesson plans for the new semester.

The secondary school teachers, junior and senior high school and continuation high school will use the inservice day to complete first-semester grades and reports and also will be planning lessons for the following week.

The Monterey and Seaside Children's Centers will be in operation as usual, with all-day, year-round care of preschool children of working parents. The pre-school classes at Noche Buena School in Seaside and Marina Del Mar School in Marina will not be in session. These are part-time classes for children who qualify under the state program (AB-1331).

Adults school classes are not affected since they are scheduled only Monday through Thursday regularly.

Other new officers to be installed include Vern Yaden, vice chairman; Rod Holmgren, secretary; Verne Sidnam, treasurer, plus Dawn Cope, Sidnam and Yaden on the Executive committee.

A no-host cocktail party at 6 will precede the dinner at 7; the program is scheduled to end by 9:30.

Members are asked to make reservations by no later than today (Thursday) by contacting Sidnam, Box 5667, Carmel, phone 624-6863.

Holiday

All 30 Monterey Peninsula Unified School District schools' kindergarten and grades 1-12, will be closed tomorrow (Friday) for a mid-term break. Teachers and other staff members will be on duty.

The second semester begins Monday, February 1.

Teachers from the 22 elementary schools will be participating in a variety of inservice meetings and projects, which in the opinion of the principal will result in better teaching-learning experiences. Each principal has planned programs which he believes will be meaningful either to the entire faculty or specific events for different grades or subjects for smaller groups of teachers, or both.

At most elementary schools there also will be opportunity for teachers to change the room environment and make lesson plans for the new semester.

The secondary school teachers, junior and senior high school and continuation high school will use the inservice day to complete first-semester grades and reports and also will be planning lessons for the following week.

The Monterey and Seaside Children's Centers will be in operation as usual, with all-day, year-round care of preschool children of working parents.

The pre-school classes at Noche Buena School in Seaside and Marina Del Mar School in Marina will not be in session. These are part-time classes for children who qualify under the state program (AB-1331).

Adults school classes are not affected since they are scheduled only Monday through Thursday regularly.

Test Dates Announced

The High School Placement Test for Notre Dame High School and for Palma High School will be administered Saturday, February 20 starting at 9:00 a.m.

Girls wishing to apply at Notre Dame should request an application form from Sister Ann Dolores, Notre Dame High School, 455 Palma Drive, Salinas 93901, 422-9836. Boys should request an application form from Brother B.J. Reinckens, Palma High School, 919 Iverson Street, Salinas 93901, 422-6391.

Testing fee will be \$2.25 and advanced registration is recommended.

State, AMBAG Will Study Pollution

Senator Donald L. Grunsky, jointly with Assemblymen Frank Murphy, Jr., and Bob Wood have announced the signing of a contract between the State and the Association of Monterey Bay Area Governments (AMBAG) for pollution study of Monterey Bay and its tributaries.

The study which will be funded with federal, state and local money will examine the effects of existing and future municipal, industrial and agricultural wastewater discharges to Monterey Bay and its tributaries and make comparative studies of alternative methods of maintaining the water quality.

Pollution in Monterey Bay has had national attention for more than a year when approximately six miles of beach area was closed to water contract sports because of the sewage contamination.

On hand for the signing were William Branson, Monterey County Supervisor and Chairman of AMBAG; Robert Robertson, AMBAG Executive Officer and Kerry Muligan, Chairman, State Water Quality Control Board.

THRILLING MOMENT - Some of boys from California School for Deaf meet with movie star Clint Eastwood during their annual trip to Defense Language Institute, West Coast Branch. Nearly 30 boys met with some of movie and sports celebrities and local dignitaries, who were participating in Bing Crosby Golf Tournament.

Little League Needs Parents' Help

The Seaside National Little League is in serious difficulty and may well cease to exist. To avoid this possibility, it is turning to the parents for help.

Most undoubtedly are familiar with Little League activity and therefore, there is no need to describe this activity in lengthy detail.

Primarily, of course, Little League's chief functions are to teach boys to play baseball and to give them an opportunity to play the game with organized teams of boys of their own age range.

But equally important is the opportunity for boys to be exposed to team work and sportsmanship.

During the past few years, boys have been signing up for Little League play in grati-

ing numbers and almost without exception they are enthusiastic and eager to participate.

Regrettably, this cannot be said for parents and relatives. And the truth is that without the participation of the adults Little League activity is doomed to failure.

Not only do the boys have a understandable desire to show their skills to adults in the grandstands but Leagues cannot function without certain tangible assistance.

Little League services are a wholesome and constructive recreational outlet for many Seaside boys those between nine and twelve years of age in the major league and boys eight years of age on the farm teams. However, the league cannot do the job alone; and therefore, they are making

this appeal to the parents.

On November 10, 1970, we held a general meeting and for some reason, there were no parents present.

The league feels that for the boys' sake, they should try one more time. Tonight, (Thursday) at 7:30 p.m. at the Ord Terrace Multipurpose Room, there will be a general meeting to discuss this year's season. Election of officers will also take place.

Please attend if at all possible because if they have the participation of adults such as in the past few years, there will, regrettably, be no Seaside National Little League in 1971. So PLEASE attend! Any suggestions or help is badly needed to save the League.

More Foster Parents Are Needed Here

Presently in the nine Bay Area counties, there are over 6,000 children, who through no fault of their own, cannot remain with their families and thus have been placed in approximately 2,600 foster homes.

Foster parents, whose services to these children are immeasurably valuable, have not been adequately acknowledged by the public.

Most of the children in foster home placement have experienced neglect or abuse in

their own homes and enter the foster homes with their individual problems and needs.

While these children are in placement, foster parents potentially have more effect and influence on them than anyone else. Therefore, foster parents should be very special and unique people.

The figure 6,000 represents children of various ages, personalities and backgrounds.

About seventy percent of the children are in placement because of their parent's inability to care for them and therefore, were ordered by the courts to be taken away from their families. Approximately thirty percent of the children are placed out of their homes at the request of their parents because of family disruptions, such as illnesses or deaths, which prevent them from caring for their children.

Those for whom we search in our recruitment of foster parents are people who not only like children and are willing to share their love and families with them, but who can respond to these children's needs.

They must have special abilities in understanding and relating to children and must be secure and flexible enough to react and adapt to each child as an individual.

People who can work well with specific types of children, such as those with particular problems (for example, medical or psychiatric) or in a certain age group, and not well with others, are also urged to become foster parents to those with whom they can be effective.

Unfortunately there is no way to adequately compensate foster parents for their invaluable services. The Department of Public Welfare pays

Bill Will Aid Elderly

A bill expanding the coverage of the Senior Citizens Property Tax Assistance Law was co-authored by Assemblyman Bob Wood (R-Monterey County) today in Sacramento.

The Bill, AB 175, extends benefits to senior citizens with household incomes of up to \$5,000 compared to the present household income limit of \$3,350. The bill thus enables a greater number of California's senior citizens to receive a rebate on their local property taxes.

The bill also increases the percentage of rebate at each income level. Wood said, "It is the senior citizens, living on limited and fixed incomes, who are hit the hardest by rising property taxes. The present program need to be expanded."

In order to qualify under the present Senior Citizens Law, at least one member of the household must be 65 years of age, a California resident, own and occupy his own home,

have paid property taxes, and the combined household income must be less than \$3,350.

The program is funded by the State General Fund and would not adversely effect property tax rates for others in the County. The County would be re-imposed by the State to offset the loss in income to the County.

Wood was joined with a majority of the Assembly in co-authoring this needed reform at trying to protect senior citizens who are losing their homes to the ravages of inflation and an escalating cost of living.

"It is tragic," the Assemblyman said, "when our Senior Citizens, many who have retired on what was an adequate pension or retirement program, now find that the cost of living has forced them to sell their homes and depend on county welfare."

Blood Drive

To Help Local Youngsters

The Red Cross Bloodmobile will set up shop at the Monterey Peninsula College student center for one-day blood drive Tuesday, February 9.

Doctors, nurses and aides will be on hand from 9 a.m. to 3 p.m. in the center's lower lounge to accept blood donations from MPC students, faculty and staff on behalf of Mark and Brett Leach, hemophiliac sons of political science instructor Jack Leach and Mrs. Leach, and ten-year-old Brent Damon Mays, son of former Monterey County residents Mr. and Mrs. Charles Mays.

Donations for the latter, a youngster soon to undergo heart surgery, should be earmarked for him in care of the Stanford University Medical Center.

The drive is being staged by Phi Sigma Chi, an MPC men's service club, under the leadership of Steve Iversen of Pacific Grove, president.

The last blood drive conducted at the college - on April 16, 1970 - brought out 172 volunteers donating a total of 142 "productive" pints after 30 were "deferred" for one reason or another, according to a local Red Cross spokesman.

Publisher's Report Seaside Ripples

A. E. 'Andy' Barragan, Publisher

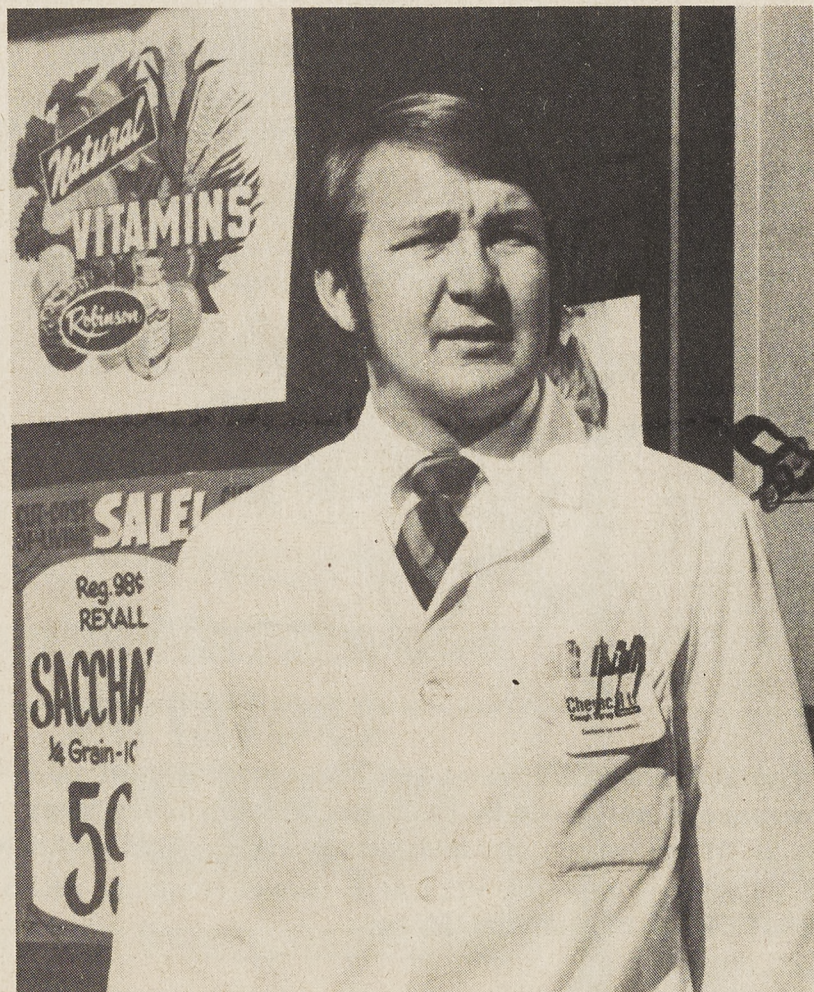

The Seaside City Council at its last meeting finally had the courage and foresight to institute an ordinance to take over the functions of the Redevelopment Agency. It has long been the considered opinion of practitioners of good government, including the California League of Cities, that the most democratic process for handling urban redevelopment is for the reins of that redevelopment to be in the hands of the body elected by the people and therefore most responsive to the will of the people.

The case in Seaside is a prime example of how an agency created by the city gets out of hand.

In the first place how can any agency or commission of the city, which is appointed by one man, be responsive to the will of the majority of the voters. It can't; it is responsive to the person who appointed it. This has been true in the actions of the planning commission and the actions of the Urban Redevelopment Agency. It becomes even more obvious when we find that the leader of the 'new' recall action against the present council is Pete Cruz, the recent chairman of the Planning Commission who wasn't re-appointed by the new council. The new City Council is moving in the right direction when they make this move to put the Urban Redevelopment Agency in the hands of elected officials instead of in the hands of an autonomous group that is not responsible directly to the will

Employee Council Is Formed

Primary organization of a Monterey County chapter of the Associated California Employees (ACE) was effected recently, uniting more than 4000 public employees working in Monterey County.

Representing 15 employee groups within Monterey County, ACE is an "organization of organizations," whose members are working collectively and are dedicated to provide a means through which the common objectives and programs of public employees at the state, school, county and city levels can be coordinated and enunciated for the basic

purposes of creating unified political strength, gaining proper recognition from the public and maintaining mutual understanding and assistance among public employees.

The advantages of such a group are many. In unity numbers there is strength. The various groups in the County that were operating independently can now share their reach, ideas and experience. Working together they are in a stronger position to support or oppose local issues which involve public employees and which are in the best interest of the public. The key to such an organization is mutual aid.

Also elected to the ACE board of directors were Pete Sira, CTA-CCS, vice chair-

man; Henry H. Van Brocklin, SUHSDTA, secretary-treasurer; and Connie Downer, MBTA Monterey Peninsula coordinator.

Local organizations participating thus far are: California Teachers Association; Monterey County Employees Association; Pacific Grove Teachers Association; Monterey Peninsula College Faculty Association; California State Employees Association; Monterey Bay Teachers Association; Salinas High School Teachers Association; California Teachers Association; Central Coast section; Gabilan Elementary Teachers Association; Hartnell College Faculty Association; and Salinas Elementary Teachers Association.

Visit The Himalayas Tonight

"High Himalaya," an unusual feature length color travel adventure film, will be screened as part of the Explorama Series at 8:15 p.m. tonight (Thursday) and tomorrow at Carmel's Sunset Auditorium.

The film has been acclaimed as one of the most unusual documentaries of recent times.

It was photographed on location in Nagar, Kafiristan, Pakistan and Hunza.

The film includes footage of areas being photographed for the first time for western audiences.

Highlights include a spectacular performance by the historic Khyber Riflemen, the world's best marksmen, who are the guardians of the famed Khyber Pass; the unusual Kingdom of Hunza which is the suggested locale for James Hilton's famous novel "Lost Horizon," where people are living in perfect mental and physical health at the age of 130; the secret kingdom of Nagra, perhaps the most remote and difficult country to reach in the world.

In Kafiristan the film includes fantastic barbaric and pagan rituals climaxed by the Feast of the Kafirs in the Pagan Valley.

The film will be narrated in person by its producer Russ Potter. Mr. Potter is one of America's foremost professional speakers and travel adventure film producers.

Reserved seat tickets are available at Abinate Music Store, 425 Alvarado, Monterey, Julia Marlowe Shop in Carmel and all Macy's stores.

Church Services

The divine source of wisdom and integrity and their availability to each individual will be emphasized at the three Christian Science church services on the Monterey Peninsula this Sunday beginning at 11 a.m.

Highlighting the Lesson-Sermon on "Truth" is the Golden Text from Psalms: "The truth of the Lord endureth for ever. Praise ye the Lord."

A passage to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states: "No wisdom is wide but his wisdom; no truth is true, no love is lovely, no life is life but the divine; no good is, but the good God bestows."

Heart Group Holding Art Show

If you are a heart patient, physician or volunteer with the Heart Association-and if you have an artistic bent-you may want to submit one or more of your creations for a special showing at the Monterey Peninsula Museum of Art.

A collection of such works of art will be hung at the museum in connection with the 1971 Heart Fund campaign during February.

A jury of art experts is being put together to judge the work, of which approximately 40 will be accepted for showing.

Mrs. Joseph Reeves of Carmel, General Chairman of the

Ordators Are Chartered

"The Ordators," the newest Toastmasters Club to be chartered in California received its charter No. 3342 January 20, at Ft. Ord's Non-Commissioned Officers Club.

At the same time the new club installed its first official set of officers. They are: George Hackiya, Monterey, president; Julian D. Clarke, Salinas, educational vice-president; Lieutenant Colonel Richard L. Murnighan, Ft. Ord, administrative vice-president; Alden Q. Ellis, Monterey, secretary; Lieutenant Robert M. Sundin, Ft. Ord, treasurer and Anthony E. Kalsavage, Salinas, sergeant-at-arms.

Roger Cuatras, District 4 Governor for the Toastmasters International presented the charter to the "Ordator" president William Gerber.

Heart drive in Monterey, Santa Cruz and San Benito, has announced that the work will be screened and only the best will be hung. Of course, she said, most of those who submit work will be amateurs, rather than professional artists and that fact will be kept in mind by the judges.

Though the space for the exhibit is most apt for paintings, Mrs. Reeves said that the judges will welcome other kinds of creative works well. More information about the competition can be obtained from the Heart Association office in Salinas, 541-A South Main Street, phone 424-6007.

Typing and Shorthand Are Offered

The Monterey adult school's spring program will offer classes for both beginning and review typing at several locations - Monterey and Seaside High Schools, King Junior High School in Seaside and Los Arboles Junior High School in Marina.

Also being offered are two types of shorthand. Gregg shorthand will be taught at the Monterey High School campus (along with advanced typing); and ABC shorthand (stenographic) will be taught at the Seaside High School campus. Stenographic is a phonetic system of shorthand requiring the use of only the 26 letters of the alphabet and three punctuation marks. This system is valuable for employment purposes, for personal notetaking and for any other situation which demands an abbreviated form of handwriting. With diligent practice, it is possible to complete the course with a speed that will satisfy the civil service requirement.

Registration fee for each of the above courses is \$3.00. Interested persons may enroll tonight between the hours of 6:00 and 10:00 p.m. at the adult office, Monterey High School or Seaside High School. For additional information call 649-7386 or 649-7188.

Other Toastmasters International officials present at the ceremonies were Lieutenant Governor Buy Ferry; immediate past District Governor William Hurley and Area Governor Bud Borges.

Roger String Quartett Will Play Tonight

A concert of chamber music by the Roger String Quartett from West Berlin, Germany, originally scheduled for last Saturday at Monterey Peninsula College, has been rescheduled for tonight (Thursday).

The concert, featuring selections from the works of Haydn, Brahms and Bloch, will begin at 8 p.m. in the MPC Theater. Tickets will be sold at the door.

The quartet made an introductory tour of the United States last spring, earning such critical kudos as "brilliance and excitement...from as perfectly schooled synchronized set of string players as one will ever hear." While touring, they appeared on NBC network television in works by Beethoven and Reger.

The four young men, Raimund Fleischer, violin; Volker Sprang, violin; Eberhard Klemmstein, viola and Thomas Kanitz, cello, are all graduates of the Berlin Academy of Music.

In their five years of public appearances together, they have played in almost every country in Europe and toured the near East and Asia. Their tape recordings for radio stations abroad are broadcast regularly.

The group, with the exception of the cellist, stands throughout a performance an effect which, according to one critic, "seems to add urgency and vitality to their playing."

Workers Can Get More Benefits

Unemployed California workers who were unqualified for extra benefit payments under the Federal-State Extended Unemployment Compensation program may, if eligible, receive benefits under a State program, James Hammond, manager, Monterey Unemployment Insurance Office of the State Department of Human Resources Development said recently.

Hammond said the state program, under which unem-

ployed workers may be eligible to file claims, is known as the California Extended Duration Program.

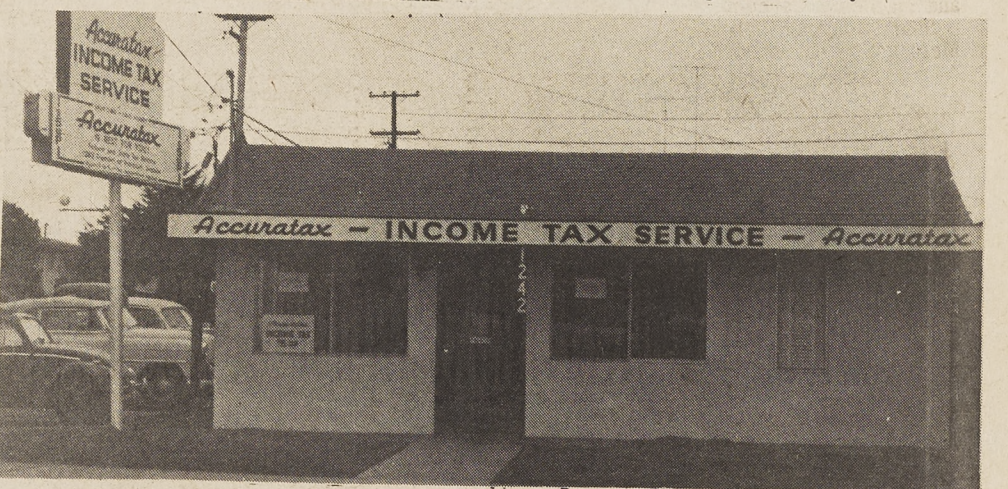

Unemployment insurance offices began accepting California Extended Duration claims on Thursday, January 21.

A person is qualified to file a claim if:

*He is unemployed.
*He has received all benefits payable on his last regular California claim.

The benefit year of his last regular California claim ended no earlier than October 31, 1970.

*He has no rights to regular unemployment insurance benefits or to extended benefits under a Federal-State Extended Unemployment Compensation program in California or any other state.
*He meets the same eligibility requirements as for regular benefits.

Scouts Plan Gala Event

The Silver Beaver Award, scouting's highest recognition given to volunteer leaders, will be presented to five men at the 40th annual recognition dinner of the Monterey Bay Area Council, Boy Scouts of America, to be held February 4, at the Monterey County Fairgrounds in Monterey, beginning at 7 p.m.

Over 300 Scouters and wives are expected to attend the dinner which is aimed at recognizing the volunteers serving boys in the council which includes Monterey, Santa Cruz and San Benito Counties.

Rear Admiral Robert W. McNitt, Superintendent of the

Naval Post-graduate School and Vice President of the Boy Scout Council, will be the master of ceremonies.

The program will include a pictorial opening ceremony, invocation by Eagle Scout from the Knights of Dunamis, welcome and introductions and a report by Council President Ariel C. Merrill, installation of officers by Council Past President August Johnson, and the presentation of Woodbadge awards by veteran Scouters Joe St. Clair.

A highlight of the dinner will be a pageant highlighting council activities using projected pictures and boys

from the different programs of Scouting including a Cub Scout, member of the Order of the Arrow, winner of the Readers' Digest-Boy Scout Public Speaking Contest, White Stag member, Explorers representing the Road Rally and Explorer Olympics, members of the Knights Dunamis and the presentation of a 50 year veteran award.

All those involved in Scouting and wives are invited to attend the dinner.

Reservations may be made at the Scout Service Center at 55 San Joaquin Street, Salinas, or by calling 422-5338.

Seasiders Win Awards

Several Seaside residents have received awards this month for their work performance at Ft. Ord.

Eloise B. Rue, 198 Luzon Road (Ft. Ord), of the Supply Division has received a step increase in pay for quality performance.

Lynn J. Rogers, 1860 Luzern Street, has received a Sustained Superior Performance Award.

Outstanding Performance Awards have gone to Ben R. Cole, 505 Hamilton Avenue, of the 6th Command Military Maintenance Inspection Team 2; Benjamin F. King, 1101 Car-

son Street, of Special Services and Wanda J. Sweat, 1181-A Waring Street, of Command Developments Command Experimentation Command.

Celia G. Brucia, 550 Trinity Avenue, of the Services Division has received a \$50 award for making a cost-saving suggestion.

YOUNG DEATHS

Motor-vehicle accidents in the United States during 1967, reports the National Automobile Club, killed about 5,600 children aged 1 to 14 years.

CTA Head Issues Challenge

Mrs. Margaret L. Lemmer, president of the 173,000-member California Teachers Association (CTA) last week challenged Governor Ronald Reagan to document a charge in his recent State-of-the-State message that tenure has become a haven for incompetent teachers.

Mrs. Lemmer, an English teacher of Lemon Grove, said the governor should receive an "F" in "Responsibility" for making such sweeping charges without submitting any documentation.

"No competent teacher or

professor in California's public schools or colleges would permit a student to make such sweeping allegations in a composition or research paper without some kind of documentation," Mrs. Lemmer said.

"The original and legitimate reasons for tenure no longer exist," the governor told the Legislature in his January 12 message. "Tenure has become a haven for the incompetent teacher. It should be altered to include a system of merit pay which provides real incentives for quality teaching. This should not be

precipitous; a judicious, sensible phase-out would be a real service to all concerned -- the student, the public and the teaching profession."

The CTA president agreed that in the ranks of California's 184,000 public school classroom teachers there surely must be some incompetents, just as in any other business, trade or profession.

"If there are incompetent teachers in California's classrooms, it is because school boards are neglecting their responsibility to pupils and parents by not exercising their dismissal powers under the law," Mrs. Lemmer said.

"Mr. Reagan should be admonishing school officials to live up to their responsibilities to get rid of the few incompetents instead of giving the whole profession a black eye by his blanket, undocumented charges."

Mrs. Lemmer pointed out that the tenure law was designed to protect pupils, not teachers. It protects pupils by insulating the teacher from political pressures, political patronage, nepotism, and other human weaknesses associated with greed and power.

She said critics of the law are either irresponsible or misinformed when they charge that tenure protects incompetent teachers, because in addition to protecting pupils, the law is a process for dismissal of teachers.

Under the law, if charges are proven, a tenured teacher can be dismissed for 14 reasons, which include incompetency, immorality, unprofessionalism, dishonesty and insubordination.

Mrs. Lemmer said CTA favors any positive, responsible and informed moves to improve the tenure law and to make it more responsive to the needs of today's education, but termed elimination of the protective provisions of the law "throwing the baby out with the bath water."

Mrs. Lemmer said CTA has no desire to protect incompetent teachers. The association does insist, as provided by the tenure law, on due and orderly process for all teachers accused, she pointed out.

"We do not believe teachers should be dismissed for arbitrary, capricious, unsubstantiated or unsubstantiated reasons. We insist that teacher, if charged with reasons for dismissal, be given a fair and full hearing, and the right of appeal."

Your Social Security

By: Raymond MacDonald

Q. My sister lives out in the country on a farm. Our mother lives with her. She is 72 years old, and is getting to be quite a burden to my sister--she forgets. She gets a Social Security check every month but she forgets she got it. Some months she loses her check and doesn't know it. Sometimes she forgets she got it and writes letters to Social Security, asking where it is. Sometimes she spends her benefit for things she doesn't want or need. My sister is really upset about the situation. Is there anything she can do?

A. There doesn't seem to be any reason why your sister couldn't qualify as a representative payee for your mother. This is frequently done in cases where the payee can't handle his own funds. A close relative who lives with and cares for the beneficiary is high on the list of priorities of those who can qualify to receive Social Security payments for the use and benefit of the beneficiary. Over the country, many thousands of beneficiaries do have help in handling their money. Some of course, are too young to be able to look after themselves. Others, such as your mother, become senile and forgetful when they get older. They need help. Others may be physically unable to handle their own financial affairs, still others, mentally unable. You advise your sister to go to her Social Security office to get this arranged. It won't be an unusual thing for them at all.

(Mail your questions to Social Security, c/o The POST-News Sentinel, or phone Social Security office 373-3351)

Seaside Ripples

Continued from page 1

or vote of the people of the community.

I sit down every week in the hopes that I can start writing something in my column besides the politics of City Hall and of the recall, but it seems that they just won't let me. Even the Monterey Peninsula Herald saw fit to write an editorial last week entitled "Stop All The Nonsense In Seaside", (See Betty Mann's Column for the full text of the Herald Editorial.) These two recent recall attempts are nonsense as we have all too often tried to point out, but they are of such serious consequence that we just can't help but try to keep the community informed. It is up to the people of the community to put a halt to these nonsensical recall moves by disgruntled disrupters of our democratic processes by refusing to go along with their ill-conceived "charges" and refusing to sign their petitions. Then we will have some peace and serenity to go on with the work of building the Seaside that all of us want, a community that we can be proud of.

Maybe in the last analysis it would be a good idea to do what many people are already suggesting and that is to go to the District Attorney and have him send some investigators to find out if there is any truth to the many allegations being bandied about by the opposing forces about deals and election code violations. We couldn't begin to print all of the rumors and allegations of this type that are brought to our attention. We wouldn't print some of them because they go into personalities and it is not the aim of this newspaper to try to run anyone down simply for the sake of trying to ruin them. We do feel though that the District Attorney could find out the truth and if he found any irregularities in the city he could bring them before the Grand Jury and have them investigated further so that the people could know the truth. This is the intelligent way to get at the truth. Once this is determined then maybe the time to institute reforms and maybe even a recall. Not on Nonsensical Charges such as are now presented.

Letter to the Editor

Editor: In a recent front page editorial, you quoted one of my advertising ads in the Monterey Herald. You, of course, took this quotation out of context. The ad specifically said that this particular client's Marina property had increased 800%. It is not fair to draw the conclusion that all properties in Marina have accelerated in value to this extent.

You have further placed me in your editorial in the category of "a friend of Mayor Haddad". A friend, yes; but a business associate, no. For the record, it should be noted that all of Mayor Haddad's personal real estate holdings, including his shopping complex, are handled by Nick Marotta and Dominic Mineo, whose business offices are located in the city of Monterey. It would also appear that Mayor Haddad has chosen this Monterey real estate firm to handle real estate being purchased and sold by the city of Seaside.

Yours very truly,
John D. Sayers
President
Sayers & Son, Inc.
117 Pearl Street
Monterey, CA

LAW IN ACTION

INSURED DRUNKS

Besides possible death, injury, jail, or loss of a driver's license, the drunk driver faces many other consequences. Take

Ron Rummy, a successful business man, for instance: After a business meeting and after too many drinks, Ron died when his car crashed into the center road divider. Right afterwards, another motorist was badly hurt when he crashed into Ron's wrecked car.

Ron's widow Molly, inherited Ron's problems: (1) the motorist sued Ron's estate and collected a big judgment, and (2) Ron's life insurance company would not pay Molly on his policies.

Why? The life policy said that the company would pay no claim if Ron was killed "while committing a felony." Molly had to sue.

What was the problem? In driving while drunk Ron had injured another person. Had he lived the court would have tried and found him guilty of a felony. But the court ruled that since Ron died before the other driver came along, he could not have committed a felony since a dead man cannot be found guilty of anything. Hence Molly got the insurance money.

Another company's policy said that it shall "not be liable for any loss to which a contributing cause was the insured's commission of a felony." A

head-on crash killed the intoxicated insured driver while he drove on the wrong side of the road. The crash killed the other driver also.

The court ruled the company didn't have to pay on the policy since the insured was the "contributing cause" to the commission of a felony. There need not be a showing that the insured was in fact guilty of a felony, only that he contributed to its commission.

Other policies may stop payment if a "violation of law" caused the death.

Another policy said it would pay for any "accidental injury." But what is accidental? The insured's drinking had caused his stomach disorder. He choked to death while eating something to calm his stomach. Was the death accidental, that is, foreseeable and not voluntary? No, said a court, and the insurance company had to pay. Had the insured suffered this way before, and could have expected the

choking, if he still had drunk too much, the death would not have been an accident.

Note: California lawyers offer this column so you may know about our laws.

Letter to the Editor

I have read with considerable interest Mrs. Pearl Carey's assessment of the current community school program. Some of her remarks are quite accurate. Others need some amplification. Let me address myself to Mrs. Carey's specific allegations.

Program

The lack of specific recreational objectives is related to the lack of accountability to which Mrs. Carey refers. My understanding is that there is a master recreational plan for the city. It seems to me that the City Council and/or the Recreation and Parks Commission must insist that the objectives have been controverted, the city must assume some of the responsibility for articulating its recreational need to the community school director.

It is true, at least at the secondary schools, that a good deal of the community school program is devoted to intramural athletics. Inasmuch as these activities take place after school and on Saturdays, it seems to me that they must be classified as recreational and not purely instructional. Moreover, the intramural program provides extensive activities for girls. It is not, as Mrs. Carey suggests, exclusively for boys. If the program structure "lacks comprehension", I assume that Mrs. Carey refers to the limited age groups who may be involved in community school activities. I believe very strongly that any group, regardless of age, that wants and needs an activity need only contact the school principal and his community school director to have such an activity planned and implemented.

Such things as special projects and cultural activities for any or all age groups can be included if only the community will request them. At one time, for instance, the community school director at King Junior High School had organized activity programs in various pocket parks for the very young children.

Another weakness in the program is in the area of budget. Such activities as field trips are not specifically provided

for and the equipment used is provided, by and large, by the school district. Community school directors are required to use their ingenuity to raise funds for awards and other needs.

Participation

Participation in the afternoon programs in no way is involved with racial discrimination. The most casual survey of these after-school programs will reveal considerable participation by many students of all races. Children are not restricted to programs at their own schools. A visit to our crafts room in the afternoon or evening will reveal participation from six to forty-six years of age.

Staff

Contrary to Mrs. Carey's understanding, there are women working in the program, not necessarily as community school directors, though we have had at least one in the past, but principally as directors of various activities.

I would dismiss Mrs. Carey's implication that a full-time student cannot be a full-time community school director. Many of us have held jobs and attended college simultaneously, as Mrs. Carey knows.

It is my purpose not only to augment some of Mrs. Carey's points of view, but I would like to offer some suggestions to the city. I believe that the community school program is the best vehicle for the provision of a suitable recreational program for our municipality. Acknowledging that it is not a perfect system, I suggest the following as ways of improving it.

The city should employ a full-time recreational director whose function it would be to coordinate the activities of all schools to insure a comprehensive program and the avoidance of unnecessary duplication.

A citizens' advisory committee should be organized at each community school. Its role would be to advise the community school director and the city recreation director of programs that are needed in that area.

The city should increase its recreational budget so that the community schools program need not rely exclusively on school equipment.

Community school directors should submit regular reports to the City Council through the city's recreational director in order to assure the governing body that its recreational objectives are being met.

To summarize, the community schools program because it is flawed and because new expectations for it have been established by a new City Council is to throw out the baby with the bath water. I suggest that a totally city-organized recreational program will result in the recreational and fiscal disasters the city has experienced in the past.

Sincerely yours,
James R. Solberg, Ph. D.
Principal
Seaside High School.

Who Cares

By Mel Vercoe

How many grandchildren do you have? Or, you, sir, how many children do you have? And are you very, very sure?

Seriously, there has to be some question about this in many American households if notice was taken of a news item from the city of Seoul, South Korea. Seoul is not exactly a village. It has a population of four million-about half again as many people as clutter up our own Los Angeles.

American troops have been in South Korea for roughly twenty years. About thirty-three thousand of them died there during the Korean conflict, which was called a conflict so that it would not be a war. Wars are bad because they sometimes entail such unprofitable restraints as rationing and wage and price controls. Anyway, our forces there until rather recently numbered about 63 thousand me, all of them within the normal age limits for normal desires during the regular human mating season. (365 days a year) and we would be less than realistic to think all of those red-blooded American boys wore chastity belts while 6,000 miles away from home.

So now the Health-Social Affairs Ministry in South Korea has gallantly decided the offspring of our young men and their young ladies are not as welcome as our military aid. They, the offspring, are being encouraged to emigrate to other places.

The news item was kind enough to not mention whether they should leave their Korean mothers behind, or where they were expected to go. Some of them are half-American, but know no one in America and wouldn't know their fathers if they met them face to face. Others may have fathers, also unidentified, in Australia and other countries.

In America this might be called discrimination. In Korea the mothers of these fatherless half-castes probably don't cast much of a political shadow in what passes for elections there. And help from the fathers - well, the fathers don't even know about their sons and daughters in Korea, so that's out.

This tragic side-picture of America's foreign wars is being repeated in each of the countries we are helping to achieve self-determination with our gunships and napalm and corruption money and mating instincts.

It probably won't help to lie awake nights worrying about it, but for those who enjoy praying it might help to pray that if some country in Asia some day finds it expedient or profitable to send hundreds of thousands of soldiers to America that they treat us little better than we have been treating them.

Anyway, that is one of the results of the time-honored philosophy, "do quickly unto others before they do unto you," and a species capable of blowing itself off the face

Taxpayers Ask IRS

This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q) Who must file an income tax return this year?

A) The 1969 Tax Reform Act raised the gross income levels at which returns must be filed. Previously a return had to be filed when gross income reached \$600.

A single person must file if his income is \$1,700 or more. Married persons living in the same household and filing jointly must file if their income is \$2,300 or more. These totals are increased by \$600 if a person is 65 or older. Other married persons generally are required to file if they have income of \$600 or more.

Taxpayers due a refund of taxes withheld must file a return to get a refund.

Q) Have you made it any easier for retired people to figure the retirement income tax credit?

A) Yes, the IRS will figure the credit and the tax for them in many cases. To qualify, they must take the standard deduction and have income not over \$20,000 coming only from salaries or wages and tips, pensions and annuities, dividends and interest.

For those who don't meet these qualifications or who decide to figure the credit themselves, the Schedule R Form has been changed to try to make the computation a little easier.

Q) Does a dependent have to be someone related to you?

A) Yes, the IRS will figure the credit and the tax for them in many cases. To qualify, they must take the standard deduction and have income not over \$20,000 coming only from salaries or wages and tips, pensions and annuities, dividends and interest.

A) No, you may claim someone who is not related to you if he or she was a member of your household and lived with you the entire year. In addition, the other dependency tests such as support and income must be met. Check the 1040 instructions for details.

Q) Where can I get copies of the tax forms?

A) Everyone who filed a return last year will receive a package of forms and instructions in the mail in January. Extra copies of the forms and instructions will also be available at local offices of the IRS as well as many banks and post offices in January.

Remember to take the blue name label off the cover of the tax package you received in the mail and put it on the return you file. This label identifies your return for speedy processing and avoids refund delays. Any corrections may be made on the label.

Q) How should I handle income from land I rent to a farmer?

A) Unless you are materially involved in the management or farming of the land you rent, you should report income from the land as rent. Use Schedule E, Form 1040.

Q) Twice a week I drive my mother to her doctor for therapy. Can I deduct my driving costs?

A) No, a W-2 withholding statement from each job held during 1970 should be attached to your return. Failure to do so delayed the refunds of many taxpayers last year.

A) If you are allowed to deduct medical expenses for your mother you may include such travel costs. For car travel, you may deduct 6¢ a mile or the actual cost of gas and oil.

This 6¢ a mile rate is a penny higher than a year ago and may also be used for travel costs associated with charitable contributions.

Q) I mailed some contributions to a charity in December. Can I deduct them on my 1970 return if they weren't cashed until this year?

A) Yes, check mailed and dated in 1970 should be reported in your 1970 income year.

Q) Where can I get a copy of Your Federal Income Tax?

A) A copy of Your Federal Income Tax, Publication No. 17, may be obtained from most IRS offices for 75¢. It may also be ordered from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Q) I have all my tax records. Can I file without my W-2?

A) No, a W-2 withholding statement from each job held during 1970 should be attached to your return. Failure to do so delayed the refunds of many taxpayers last year.

Q) I was out on strike last spring. Do I have to pay tax on the strike benefits I received then?

A) Yes, strike benefits are taxable, unless the facts clearly show they were intended as a gift.

Questions are Answered

Q. For several years after the death of my husband, I received a widow's pension from the Veterans Administration. When I remarried, the pension stopped. My second husband, who was not a veteran, died recently and I was left without sufficient income to provide for my support. Is it possible to have my pension restored?

A. Yes, if you are otherwise qualified for benefits, you may reapply for death

pension benefits. A change in the law effective January 1, 1971, permits restoration of death pensions to widows who remarry and the marriage is terminated by death or divorce.

Q. I did not complete high school, but was accepted as a college student under the G. I. Bill on the basis of a General Equivalency Diploma test. I now find that I am having trouble with some subjects and cannot keep up with my class. I have been advised to seek special help can VA help me?

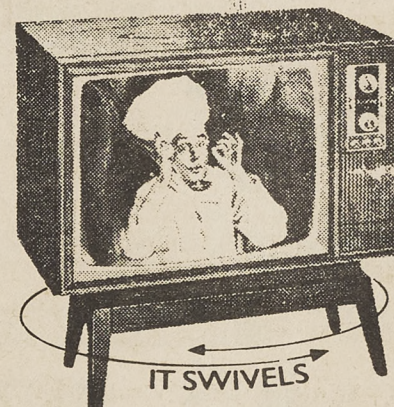

A. Yes, if your school certifies that you need tutorial help to avoid failing a course, you may receive up to \$50 a month for nine months to pay a qualified tutor. Applications should be made to the VA on Form 21E-1990T.

Q. Several years ago I elected to receive Army retirement benefits rather than VA disability compensation. Is it too late to change now?

A. No, there is no deadline for changing to compensation from VA in lieu of retired military pay. You should communicate with the VA office having your claim file, giving your claim number. Q. I am currently training as an apprentice under the G. I. Bill. As a part of my training my employer has asked me to take a correspondence course. Will VA pay for the lessons completed through correspondence in addition to providing the allowance under the apprenticeship program?

A. No. You cannot be paid for a correspondence course at the same time you are pursuing training under an apprenticeship program.

Grooving Around the Peninsula with Betty Mann

HI THERE FELLOW PENINSULANS:

It gives me great pleasure knowing that my very "non-professional" column is being read by professional type critics. (smiles) Advice was given by an anonymous reader that I should attend M.P.C. and take a course in journalism. Well, baby, let it be known that yours truly is enrolled at M.P.C., but I'm not taking journalism. I'm studying general education! I wish to teach your children and grandchildren. (smiles) Writing this column is just one of my many hobbies and not my living!!!

So, lighten up on the criticism and show a little more humor.

Speaking of my non-professional type column-writing, I wish to tell you that the same message I've been trying to get over to my "dear readers" was finally printed as an editorial in the January 19, edition of the Monterey Herald. The following: "STOP ALL THE NONSENSE IN SEASIDE!" is reprinted from that edition of the Herald.

THE TIME has arrived to stop all this recall nonsense in Seaside. One petition to recall four members of city council has been held defective by the city attorney and no doubt will be bouncing around the courts for months to come. A second petition to recall Seaside's controversial, to say the least, mayor has been withdrawn by its sponsors in a conciliatory gesture, pending the final disposition of the first petition.

Now a third recall campaign has been initiated by some of the same instigators of the original recall movement against the four councilmen. If this one winds up as lacking in validity as the first attempt--and well it might--the sponsors no doubt will want to try again and again. We can visualize the harassed citizens of Seaside coming down collectively with a communitywide case of writer's cramp.

The mayor and four councilmen all were properly elected to office in regular elections and if our democratic process means anything at all, are entitled, even obligated, to serve our their respective terms. It is utter nonsense to go to the expense of a special recall election merely because the majority of the council cannot get along with the mayor's minority of one, or that the minority cannot get along with the majority.

Who expects them to, or even should they get along? Does Seaside's city government have room for only one point of view? It would seem more desirable to want a recall if the mayor and council were all of one mind and ran the city the way they wanted, to the exclusion of everyone else.

The persistence of those who keep initiating new recall campaigns suggests that this is exactly what the mayor and his supporters want--rather than a "fair shake" for the people of Seaside. After all, what does the mayor have to lose?

If there is a recall election, and the four incumbent councilmen are returned to office, he is no worse off than he was before. If, on the other hand, one or more of the incumbents happens to lose out, the mayor has got his way to that extent.

And if a new council is made up a majority of mayoralty yes-men, is the City of Seaside the better off for having unanimity of opinion in its governing body instead of a free play of differing opinions?

Those who had been circulating recall petitions against the mayor have pulled back. Now would be an appropriate time for those seeking the recall of the council to do the same.

Then, liberated from the bother of signing repetitious petitions for a needless recall, the citizens of Seaside can observe the behavior of their chosen officials and pass judgment upon that behavior at the next regularly scheduled election.

RIGHT ON!

Other fun happenings around this little old town included an elite cocktail party hosted by Mrs. Mary Ellen Harris at her home on Waring Street. The cocktail party was given in honor of Mr. Hubert Bass of Muncie, Indiana. Mr. Bass was here on the Peninsula visiting his niece and nephew, Mr. and Mrs. Richard Bass of Seaside. Another cozy cocktail party was given by Mrs. Myra David Mitchell in her beautiful apartment on Olympia Street. The occasion was to wish Myra's husband, Frank, who is in the Navy, bon voyage to Hawaii, where he will be stationed for six months. The guests attending enjoyed an evening of cocktails and dancing. Conversations were taped for Frank to reminisce over while away from home.

The Black Students Union of M.P.C. sponsored a benefit dance at the schools gymnasium in honor of Judy Hopkins, who has recently undergone extensive brain surgery.

All proceeds will be used to help pay hospital expenses for Judy, who is now recovering very rapidly and hopes to be back singing very soon with the Pure Essence Vocal Group.

Signing Off For Now,
Betty

CDCEC Has Busy Month Girl Scouts

January was a busy month, vistor-wise, at the Army Combat Developments Command Experimentation Command on Fort Ord. February will be even busier.

General Francesco Mereu, Chief of Staff of the Italian Army and his party visited the command for general orientation on its mission and activities on January 14 and 15.

Two visitors arrived on the 18th-- Mr. Ernest Bell of the Naval Weapons Center at China Lake, California, for orientation on the SIAF (Small Independent Air Force experiment) and Mr. Franz Joseph Damann from the Federal Republic of Germany. On January 25, three representatives of the Harry Diamond Laboratories in Washington DC, arrived for orientation.

Mr. Charles D. Crawford, the USA Combat Developments Command's Evaluation Director, from CDCEC's parent unit at Fort Belvoir, Virginia visited on January 26.

On February 2 through 4, the new CDC commander, Lieutenant General John Norton will tour this unit of his new command.

More visitors from overseas are also expected in February. A party of five from the Operations Research Group of the Federal Republic of Germany will arrive on February 9; and on February 19, a group headed by Lt. General Willem Van Rijn, Chief of the General Staff and Commander in Chief of the Netherlands Forces.

A visitor from the Marine Corps, Brigadier General L. F. Snoddy, Jr., commanding general of the Developments Center, Marine Corps Developments and Education Com-

mand at Quantico, Virginia will visit CDCEC on February 24-25.

CDCEC attracts many visitors throughout the year from all over the world military leaders from other posts, other services, other nations and civilian leaders in industry, science, education and government all traveling to Fort Ord and to CDCEC's field laboratory on the Hunter Liggett Reservation near King City to see this unique command in operation. It is the only organization of its kind in the United States Army, or in military history with the mission of designing the Army of the Future while improving the Army of today.

Local MD At Special Conference

H. Henry Rock, M.D., 795 Elm Avenue, Seaside, will attend a Conference on Family Practice through January 30 at the University of California, Irvine-College of Medicine, Newport Beach.

Especially designed for family physicians, the medical refresher course is held annually to bring the doctors up-to-date on the most recent innovations in diagnosis and patient care. The coursework covers all medical specialties and is conducted by faculty from UC Irvine's departments of medicine, surgery, pediatrics, obstetrics and gynecology, psychiatry and physical medicine.

More than 375 physicians representing thirty states will participate in the five-day course.

Plan Parade

A parade, craft exhibit and demonstration are being planned by all the Monterey Peninsula Girl Scouts for Saturday, February 20.

The event is entitled "It's a Small World" with an international theme since February is Girl Scout International month.

The parade will begin at 10 a.m. from the Monterey High football field, proceed down Jefferson Street to Calle Principal and then on to the Custom House Plaza for the crafts and demonstrations exhibit which will last until 1:00 p.m.

The 28th Army Band and Fremont Junior High Band will march with the scouts to the Custom House Plaza to participate in the flag ceremony and also render several musical selections.

Members of Cadette Troops 2005, 2086, 2130, 2029, 2158, 2054 and 2167 are coordinating the event.

In case of rain the exhibits will be held in the Monterey High Boy's gym.

The public is invited to attend the parade and crafts exhibit at the Custom House Plaza.

BUSY

The Veterans Administration says 24,500 disabled vets trained in its vocational rehabilitation programs during fiscal year 1970.

Mary Ellen / Social Editor

Mrs. Ralph Artis and her three children, Darrell, Ronald and Carl, visited with their close friends, Mr. and Mrs. Lee Fowler, Mr. and Mrs. Johnny Rivers and Mr. and Mrs. William Hill during their recent stay on the Peninsula. The Artis family, formerly of Fort Ord and Seaside, are presently residing in Panama. Mr. Artis, a retired SSG, U. S. Army, visited with relatives in Los Angeles while his family was here. The Fowlers drove their guest back to Los Angeles where they were joined with Mr. Artis. The Family returned to Panama on January 9.

Mr. and Mrs. Richard Bass of Seaside were pleased to have had a five day visit from Hubert Bass of Munoie, Indiana, uncle of Richard Bass. Mr. Bass, his wife and their daughter Rita, flew to Los Angeles to visit with relatives and friends. Rita resides in Washington, D. C. While on the West coast, Mr. Bass decided to fly to Monterey for his first visit and see the beautiful area he had heard so much about. His nephew showed him around the local area and entertained him with an evening of pleasure at the Non-Commissioned Officer's Club at Fort Ord. In addition to their daughter Rita, the Bass's have a son, David, who lives in Los Angeles.

Bama Davis, mother of Elder Olen Davis of Seaside, was on the Peninsula for a three-week visit with her son and daughter-in-law. The senior Mrs. Davis, of Plainview, Texas, is a member of Givens Chapel Church of God in Christ in her hometown. While here, she worshipped frequently at Victory Temple Church of God in Christ in Seaside. Mrs. Davis was also a guest of Mrs. Ruthie Porter of Seaside, who joined her during many church services. Mrs. Davis expressed gratitude for having been able to see her christian friends, whom she met on previous visits to this area. In addition to her son, she has two daughters, Lena Faye Davis of Abilene, Texas and Jessie Dixon of Amarillo, Texas.

Citadel Lodge #1329, I. B. P. O.E. of W., held their installation of newly elected officers at the Elks Rest in Seaside, January 6.

Officers installed were Brothers Harvey H. Hinton, Exalted Ruler; John D. Finney, Esteemed Lecturing Knight; Pope McDonald, Secretary; Jesse Edwards, Treasurer; John Gordon, Tiler; Joe Fletcher, Esquire; Arthur Love, Inner Guard; Eliza Rose (3yrs), Duke Upshaw (2 yrs) Theron Polite (1 yr), and Roosevelt Williams (1 yr) were installed as Trustees.

Those appointed by the Exalted Ruler are Brothers Samuel Lindsey, Assistant Secretary; Curtis Allsbrook and Arthur Love, Sick Committee. House Committee Chairman is Brother Samuel Lindsey. He is assisted by Brothers Oscar Phillips and Herman Dean. His helpers are Brother Douglas Robinson, Chris Jenkins and Henry Mason. Serving on the Education Committee are Brothers Roosevelt Williams, Theron Polite and Willie Brown. Brothers Lloyd Wilkins, Duke Upshaw and Jesse Edwards serve on the Joint Entertainment Committee. Organist and Ways and Means Committee will be appointed at a later date.

On Sunday, January 17, the local lodge hosted the Past Exalted Rulers Council #119, Central District of California. Special highlights of the meeting were the honoring of the Elks of the year Brother Ernest Brown of Tulare and Brother J. W. Edmondson of Fresno, for their twenty-five year membership with the Council.

Council #119 officers serving in 1971 are Chief Antler, Thomas Riley of Bakersfield; Vice Antler, Hubert Turney of Fresno; Left Antler, Edwin Louis of Fresno; Right Antler, Harvey H. Hinton of Pacific Grove; Secretary, David Brown of Tulare and Treasurer, Jesse Edwards of Seaside.

The Local Council members, Citadel Lodge #1329, are making plans for their Annual "Queen" contest, which will be held at the San Carlos Hotel next October.

Mrs. Allan Premier will be honored during a coffee on Sunday, January 31, beginning 2 p.m. at the Community Center, Olympia Plaza in Seaside. The Cavalier Social Club will host the affair in recognition of this fine citizen who has worked so diligently with them for the past three years.

Mrs. Premier had brought Christmas cheer to 500 or more children in Seaside.

Mrs. Leroy Knight, Honorary Member of the club, will present Mrs. Premier with a plaque, in appreciation for all of her very fine support and efforts.

The affair will last until 6 p.m. The public is cordially invited.

Count Basie and his band will present a concert from 8 p.m. to 9:30 p.m. and dance from 10 to 12 p.m. on Monday, February 15 at Monterey Peninsula College. The affair will be held in the School's Gym.

Tickets are available and can be purchased from any Les Grand Coeur member, who are serving as Co-chairman for affair, or by calling 394-7294.

Ord Artists Top Contest

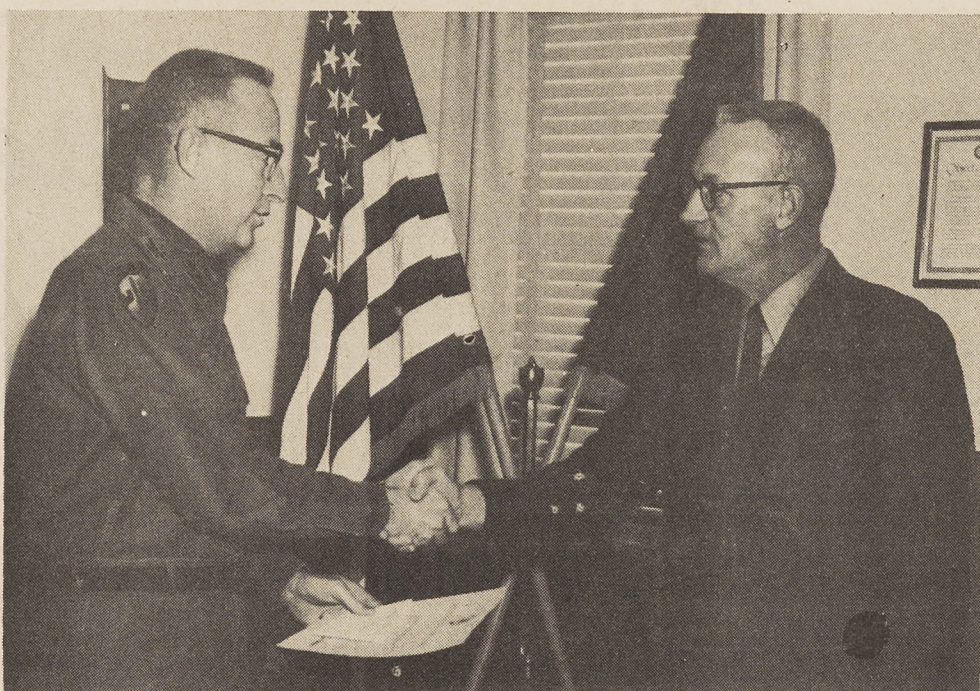

Ft. Ord artist-craftsmen have taken 15 of the 20 awards given in the Sixth U.S. Army Designer-Craftsman Contest recently completed.

Top winner was Specialist 4 Robert A. Chidsey, who won a Blue Ribbon, \$25 and "Best of Show" honors for a small bronze beachrock and wood sculpture titled "...and that's your flag."

First place in the jewelry category went to Specialist 4 William A. Stalder for his gold ring with turquoise and Spe-

cialist 5 John Hopkins won both first and second places in ceramics with tea pot and cups and a pottery plate.

Other Ft. Ord winners were Private First Class David R. Schroeder for a leather vest, Sergeant First Class Kenneth R. Earley for a cutting board and a carving tray, Private First Class William R. Lemmon for a wall decoration, Private First Class David A. Peik for a brass ring with an amethyst stone and Specialist 4 Larry D. Knutson for a drawing of a large sculpture.

MONEY SAVER - Orville H. Ophaug (right), chief of Training Aids Center at Ft. Ord, receives award of \$630 for suggesting improved method of preparing training aids. His suggestion saved Ft. Ord \$13,000 this year. Making presentation is Colonel Stephen E. Cavanaugh, Ft. Ord's deputy installation commander.

Drive on to Receives Bronze Star Give Jobs To Veterans

A major new drive to provide training and jobs for veterans is being planned by the State Department of Human Resources Development, according to a statement issued by HRD Director Gilbert L. Sheffield.

Sheffield said that HRD Department was giving top priority to veterans seeking work, but an extra effort would be needed in 1971-72 and for the next few years because of the increased number of veterans returning from Vietnam.

"Over one million serviceman will complete their military duty this year," Sheffield said, "and we expect that at least ten percent of them will be returning to California. This number is expected to rise in each of the next few years with the withdrawal from Vietnam and other planned reductions in the Armed Forces."

"Our field offices will therefore be expanding their services to veterans. Many offices will have additional staff working full time exclusively in interviewing, jobs for the returning veterans or to place them in suitable training, that will lead to such jobs."

"Most of these veterans will be young men aged 20-24, an age group for whom the labor market is particularly tight," Sheffield added. "Many will be married, and have a child or two."

"But most of the returning veterans bring special qualifications to the civilian job market," Sheffield added. "About 80 percent of the enlisted personnel acquire a skill in the military which is directly related or easily converted to a civilian occupation. They cover a wide range of jobs in the technical, mechanical and administrative fields."

Referring to HRD Department's veteran placement program for 1970, Sheffield said that more than 82,000 veterans were found jobs through the state employment service last year. This was 42 percent of the total male placements figure of 196,555.

"We expect that figure will be substantially greater in 1971 said Sheffield, "but this is not a number game. What we want to achieve in 1971 and in succeeding years is to see that the returning serviceman gets at least a fair shake in the labor market and, if at all possible, a better-than-average chance to find a good and permanent job, back in the mainstream of the economic life of the country."

Wins New Medal

Army Command Sergeant Major Wilbert L. Hopkins, whose wife, Mildred, lives in Seaside, was recently awarded the newly established meritorious Service Medal while serving with the 266th Supply and Service Battalion at Long Binh Post, Vietnam. The medal, which is a noncombat award, provides recognition for a degree of achievement falling between the standards of the Legion of merit and the Army Commendation Medal.

Csm. Hopkins received the award for his exceptionally meritorious service as command sergeant major, during his last assignment with Fourth Combat Support Training Brigade, U.S. Army Training Center, Infantry, Ft. Ord. Presently assigned as battalion sergeant major for the 266th at Long Binh Post, he entered the Army in 1942 and also holds two awards of the Army Commendation Medal and two awards of the Bronze Star Medal.

Army specialist four Andrew Morzal, 21, son of Mr. and Mrs. Joseph Morzal, 1793 Noche Buena Street, Seaside, recently received the bronze star medal in Vietnam. He was presented the Bronze Star Medal for distinguishing himself through meritorious service in connection with military operations against hostile forces in Vietnam.

Spec. Morzal entered the army in August 1969 and was last stationed at Ft. Lewis, Washington.

Vocational Programs Outlined

Enrollment in vocational classes within the Monterey Peninsula Unified School District totals 7022 for secondary schools, grades 7-12, plus 610 people signed up for adult school vocational education courses, according to a report presented to the board of education recently by James Harrison, associate superintendent.

Vocational education goals are to teach a skill or series of skills which will direct students to further vocational training or prepare students for immediate job-entry.

Formerly many of the classes were designed to develop interest and some avocational skill in industrial arts. Costs would be prohibitive in establishing comprehensive vocational centers at each senior high school, but the curricula is being revised and recommendations

for purchase of certain equipment is planned. It is recommended that the pilot course called the world of construction, now offered to students at Los Arboles Junior High School and another course called the world of manufacturing both be offered next year at all five junior high schools.

Expansion of the work experience program is also recommended.

The report, prepared by John Lucas, assistant superintendent for secondary education and Alden Phillips, coordinator of occupational and vocational education, states that plans are being made to offer work experience program for handicapped pupils and to allow disadvantaged students to sign up as classroom aides in business courses.

Not counted in the total is

a pilot class introduction to police science now being given at Seaside High School. A similar course in fire science is under study.

The largest enrollment is in industrial arts, 2846 total of which 717 are students at Monterey High, 519 at Seaside High and 1610 among the five junior high schools.

Nurses' aide courses are offered at both senior high schools.

Advanced vocational education is offered only at Monterey High School.

Aviation technology is offered only at Seaside High School.

Business education has an enrollment of 2102 and home economics is the third in enrollment with 1779—both offered at all secondary schools. Three kinds of work experience classes include exploratory, general and vocational, with 133 participants. Of these, 70 are from Monterey High, 43 from Seaside High and only in general work experience 25 from continuation high.

Total vocational education enrollment at Monterey High School is 2068, at Seaside High School 1612, and junior high schools 3317, plus the 25 students in continuation high school signed up for work experience.

The 610 people enrolled in adult education vocational class take many of the same subjects, available at Monterey and Seaside High School plants and at King and Colton Junior High School, and some available at other places in the community by special arrangement.

Adults also take courses in plumbing, dental and medical assistance, distributive education (merchandising), bank letters, trust services and pre-school child development.

Two Years in Europe Is Guaranteed

The United States Army recruiting office at 431 Webster Street in Monterey is currently accepting applications from young men desiring to enlist in the Modern Volunteer Army and serve as a crewman in Pershing Missile units.

Those enlisting for this option receive a guaranteed 24-month assignment with a Germany-based artillery unit. The enlistee may sign up for a tour of service totaling from three to six years.

Following state-side basic training and advance training at the Army Artillery Center, Fort Sill, Oklahoma, the enlistee will be assigned to the 56th Artillery Group in the Republic of West Germany.

The 400-mile range Pershing Missile is currently the most powerful tactical missile in the Army's inventory. Missile crewmen operate the vehicle that transports the missile, assemble the missile and operate and test the various firing devices.

For additional information interested persons should contact Sergeant Jose Garcia, local Army recruiter at his office or call him at 372-4742.

NEW AWARD - Al Lioi (left), commander of Seaside Post of American Legion and Orenco M. Perez (far right), chairman of Legion's Citizenship Committee were on hand to award these local residents, who recently received their citizenship papers, their Citizenship Certificate of Appreciation awards. Receiving awards are: (from left) Nick Padilla, Nicolas Olivo, Zef Nelcaj, Herminia Martinez, Kasimira Padilla, Elizabeth Cioi, Toni Strickland and Mickey Dowden. Award, which was begun this year, will become annual honor.

New French Films to Be Shown Here

The first Northern California showings of a collection of new French films will be presented under the co-sponsorship of Alliance Francaise of the Monterey Peninsula and Monterey Peninsula College's community services office February 9, 10 and 11 at the Carmel Village Theater.

The films, according to Mrs. Jerome Carlson, Alliance president, have been obtained through the cultural office of the French Embassy. Acclaimed by critics after their recent initial screenings in France, they were all produced by "the talented young film-makers" of that country, she emphasizes.

Three of the films—all with English subtitles—will be shown twice daily during the festival. These will include: "La Maison des Bories" (A Stranger in the House), produced by Jacques Doniol-Valcroze, president of the French Film-Makers Association—Tuesday, February 9, at 2 and 7:30 pm.

"Remparts d'Argile" (Ramparts of Clay), produced and directed in a south Tunisian village by 28-year-old Jean-Louis Bertucelli, who will be on the Peninsula for the three-day festival—Wednesday, February 10, at 2 and 7:30 pm.

"Le Clair de Terre" (Earthlight), produced and the Algerian-born Guy Gilles—Thursday, February 11, 2 and 7:30 pm.

A "bonus" film will be added each evening as time permits. Among these will be the highly sophisticated "L'Eden et Apres," written by Alain Robbe-Grillet, author of "Last Year in Marienbad"; "Elise ou La Vraie Vie," by

Board Elects Chairman

The State Board of Equalization, meeting in its first session of the new year, elected Richard Nevins as chairman for 1971, succeeding George R. Reilly of San Francisco.

John W. Lynch of Fresno was elected vice-chairman. Nevins, who represents the Fourth Equalization District, which includes the Southern California counties, said, following his election:

"Nineteen seventy-one is the year of reapportionment and certainly the Board will be included in any reapportionment decisions made by the Legislature."

Meanwhile, the Board must assess the work we have done in implementing the Assessment Reform Law of 1966 and move forward on adoption of the Board's tax reform legislation.

Nevins was nominated for the chairmanship by Lynch and his nomination seconded by Houston I. Flournoy, State Controller.

Committee assignments for 1971 announced by Chairman Nevins were: Lynch, legislation; Reilly, personnel; Flournoy, valuation of public utilities; Nevins, assistance to assessors and intercommunity equalization and William M. Bennet, public relations.

This was Bennett's first formal Board meeting since he succeeded Paul R. Leake, retired, as representative for the Third Equalization District.

Michel Drach, a film on awakening social and political consciousness and the war of independence in Algeria; and "Une Femme Douce" (A Gentle Wife), also by Drach. Tickets will be sold at the door or may be purchased in advance at the Village Theater or the MPC community services office.

SMATS Study Is Finished

The Salinas-Monterey Area Transportation Study (SMATS) has completed its seven-month-long series of home interviews. The conclusion of the Traffic Origin-and-Destination survey has been announced by Major Earl Grafton of Pacific Grove, chairman of the SMATS Policy Advisory Committee.

Mayor Grafton has expressed the appreciation of everyone associated with SMATS for the cooperation of the thousands of Northern Monterey County residents who welcomed the interviewers into their homes and provided the needed information. There will be no further home interviews by SMATS personnel.

Preliminary data from the Home O-D indicates an average daily total of somewhat more than 570,000 individual trips within the SMATS area (all of Monterey County from Chualar and Point Soberanes north to the county line). This figure includes both driver and passenger trips in commercial as well as private vehicles. Most of these are made in the urban areas.

Some 7,649 households, including single-family homes, apartments, hotels and motels, hospitals and convalescent homes were interviewed. These represent 10 percent of the total number of homes in the area.

Information compiled from the home interviews will be processed in Sacramento by the Division of Highways and returned in late spring for use by local planning and engineering staffs.

Travel recorded by SMATS will be related to land use in the area and then used to provide projections of future transportation requirements, thus providing local planners with another valuable tool for use in their work.

What It Is And What It Isn't

By Journalism Students of Seaside High School

by Joyce Nakamura

In an attempt to discover whether the school district buys United Farm Workers' Union lettuce, some interesting predicaments developed.

The first point of inquiry was the school cafeteria. The cafeteria manager did not know if UFWOC lettuce was bought by the school district, but told us to ask Russo's Market and Mac's Produce - the only two wholesale produce dealers on the peninsula - if they do. A quick glance before leaving the cafeteria spotted no UFWOC stamp on the lettuce box, which was labeled, "Dos Palos, California" (near Fresno). Both said that they sell UFWOC lettuce. If so, why was the lettuce box in the cafeteria without a UFWOC stamp?

Keeping this question in mind, a call was made to Mrs. Behrman, head administrator of the district cafeterias. Mrs. Behrman refused to give out any information concerning lettuce purchases.

Why is Mrs. Behrman reluctant to say anything if the district purchases lettuce from Mac's Produce and Russo's Market, which both carry UFWOC lettuce? Could it be that the district buys from a UFWOC dealer, but then chooses to buy non-union lettuce? There are many mysteries involved here that need to be answered. Who's fooling who?

TOURNAMENT FOR SPECTATORS

Jayme Hedrick

Bing Crosby's recent Golf tournament provided much entertainment for everyone. Many highly acclaimed golf pros were there along with few television and movie screen actors. If you were lucky you could watch Andy Williams practice his putting ability and maybe get to talk with such great names as Glen Campbell, Arnold Palmer, Dean Martin, Jack Nicklaus and many, many more. Tom Shaw, the winner, amazed the crowd by his straight to the pin shots and quickly rose to the top of the favorites. Palmer a close second, was another favorite. Many people were heard to utter a silent prayer for ol' Arnie to win.

On the whole, I enjoyed the program and can hardly wait for next year to roll around so that I can get a front row seat at the 18th green.

SEASIDE DRILL TEAM

By Mary Untalan

Black uniforms, boots and white hats are distinctive of the 1970-71 Drill Team from Seaside High.

Twenty-eight young women make up this precision team that participates in competition matches and parades, and demonstrate their skill at half times of football and basketball games.

The drill team organizes under the leadership of a captain, three lieutenants and with the cooperation of Mrs. Miller, a young Seaside High teacher. The drill team practices daily on street and dance routines.

The team is now working on a number of events beginning with the 1971 Chinese New Year Parade.

STUDENTS WATCH GOLF PROS

By Larry Smilie

Lee Trevino, Bob Lunn, Orville Moody and Dave Stockton honored Fort Ord Golf Course with an exhibition on January 13. Orville Moody arrived early, hitting about 30 exhibition shots. The arrival of Bob Lunn, winner of the Los Angeles open and Dave Stockton drew a great crowd as they neared the tee. Finally, one of the great crowd pleasers on the tour Lee Trevino arrived. The sight of Lee Trevino brought cheers from the crowd. With all four pros on the tee, the crowd was tremendous and good views were hard to find.

PREDICTIONS OF '71

by: Beryl Domingo

Earlier this month a reliable source was asked to give predictions for this year. She was grateful and willing to help me bring you the latest scoop.

The graduating class of 1971 from Seaside High School will be the greatest class of the '70's

Peace will come throughout the world within a few years.

Marijuana will become legalized and less frequently used.

More severe earthquakes will occur in California the largest being in Santa Monica

The Burton/Taylor marriage will result in many more conflicts.

Dr. Solberg will have himself a full-grown goat and be very proud by Valentine's Day.

Water, air and noise pollution will be done away with by drastic means.

Be on the look out for these occurrences don't let it catch you out of the know.

Senator Grunsky Says...

The waters of Monterey Bay and Carmel Bay, their tributaries and adjacent lands represent invaluable water and land resources because of their great natural beauty and special ecological significance.

The threat of pollution to these waters was brought forcibly to the attention of all of California and the nation in September and October of 1969 when the Monterey County Health Department

posted six and one-half miles of beaches as being unsafe for human contact. This action, which received national notoriety, resulted from a survey of Monterey Bay which revealed that the near-shore waters were not meeting the bacteriological standards for water contact activities as established by the State department of Public Health.

Subsequently, in December of 1969, the California Regional Water Quality Control Board, Central Coast Region, issued Cease and Desist Orders against four waste discharge requirements. Three of these orders were amended in February of 1970 and made more stringent in accordance with the provisions of the new Porter-Cologne Water Quality Control Act.

Following compliance by the waste dischargers in meeting the bacteriological requirements, the posting of the beaches was canceled. While it is estimated that current pollution levels have not yet reached irreversible proportions, problems of water quality are becoming more prevalent because of the increasing urban development pressures.

Something must and will be done to save and protect Monterey Bay.

This contract, between the State Water Resources Control Board and the Association of Monterey Bay Area Governments (AMBAG), which I am announcing to day with my colleagues Assemblymen Bob Wood and Frank Murphy, is the first step in that direction. Under this contract, AMBAG will conduct an in-depth water quality and water management study and recommend plans for the disposal of municipal, industrial and agricultural wastewaters and for water resources management so as to fully protect the water environment of the Monterey Bay area.

This study is being funded by the State with Legislative approval, through the State Water Quality Control Board, and by AMBAG. An application for a federal grant to assist in financing the study is now undergoing final review in Washington and we are confident it will be approved. Details of the proposed study are in the fact sheet previously given you.

It is a pleasure to convey to Kerry W. Mulligan, Chairman of the State Water Resources Control Board, and to William Branson, President of AMBAG, their copies of the contract as approved by the State Department of Finance and General Services.

In closing, let me express my appreciation to Assemblymen Bob Wood and Frank Murphy for their help in assisting me in carrying this appropriation through the Legislature last year. We are determined that the priceless natural heritage of the Monterey Bay region will be preserved.

Change your car's oil filter often, says National Automobile Club.

New Bill Will Stop Drilling New Styles on Display Bob Wood Reports

Senator Alan Cranston announced recently in Los Angeles that he is asking the Department of the Interior and President Nixon's Council on Environmental Quality to seek an indefinite moratorium on further oil drilling in Santa Barbara Channel, pending action on new legislation he is introducing.

Cranston announced plans for new, sweeping legislation to curtail or eliminate further oil drilling in the Santa Barbara Channel in a statement submitted to a public hearing in Santa Barbara by the Interior Department on applications for two new drilling platforms.

His bill would create an "ecological preserve" in the Channel, phase out some production in the federal tidelands off the coast of Santa Barbara, create new sanctuaries and provide a moratorium on development elsewhere, pending development of underwater drilling and production techniques and more effective means for controlling spills.

Time was needed, he said, to introduce new legislation, hold hearings and build public support for his proposals.

"The task is a tough one, but with concern over the environment developing so strongly, there is reason to hope that the tide is turning in the struggle against pollution," Cranston said.

Cranston said he was consulting with Senator John Tunney and Congressman Charles Teague's offices on the proposed legislation.

It was developed in consultation with city and county authorities in Santa Barbara and the GOO (Get Oil Out) organization.

The new proposal combines the features of several proposals already made, including a bill by the Nixon Administration proposed by then Secretary of the Interior Walter Hickel.

Cranston said he believes that the Administration, the Council and the new Environmental Protection Agency have authority to declare a drilling moratorium in the Channel under provisions of the National Environmental Policy Act.

Briefly, Cranston's bill would:

*Terminate 38 leases on which no oil has been found.

These leases would include 23 leases in front of the State Sanctuary which protects the City of Santa Barbara; 13 leases north of San Miguel and Santa Rosa Islands and two leases offshore of Anacapa Island, which is part of the Channel Islands National Monument. The holders of these leases would be entitled to compensation for the fair market value of the leases on the date of termination.

"Declare a moratorium of at least five years on 29 leases including 18 leases west of the City of Santa Barbara where there has been a substantial discovery by Humble Oil and 11 leases offshore the coast of Ventura County where Standard Oil is presently engaged in exploratory drilling.

Provide that the Union and Sun leases which are drilling into the Dos Cuadras oil field be terminated and included in the ecological preserve once drilling to minimize oil spillage is no longer necessary.

"Provide that the two platforms on the Phillips lease be terminated if and when the State of California terminates drilling into the same oil formation (the Carpinteria Offshore Field). The Phillips, Sun and Union leases would also be required to replace the platforms with underwater drilling or production units as soon as possible.

Dog Walks 272 Miles Back Home

A hungry, tired dog found her way back to her home in Detroit after being given to a family in Cheboygan, Michigan—272 miles away.

Salty, a black-and-white mongrel, left Cheboygan in mid-December and returned to the LaBeff home in Detroit on New Year's Day.

Mrs. Margie LaBeff, who had given Salty away because she thought the dog would be happier where she had more room to run around, has no intention of letting her go again.

"She's home for good," said Mrs. LaBeff and her eight-year-old daughter Michelle.

In 1971, maybe it's not "Home Sweet Home", but it is home swinging home, with furnishings to suit every life style.

"Newest modern designs soften their shiny metal-and-glass appearance with sheaths of beautiful woods. But then, Victorian seating is wrapped in modern fabrics. It's individual, it's fun and it works."

Ed Battle of Battle's Furniture said.

He summarized what he expects to see during his trip to the winter home furnishings market at San Francisco's Western Merchandise Mart,

Talcott Names Local Man

Congressman Burt L. Talcott has announced that he has appointed James E. ("Buff") Cody as his District Field Representative.

The newly established position has been created to enable Congressman Talcott to keep more closely informed regarding district situations so that he may respond to these situations quickly and with better understanding.

Congressman Talcott stated that Mr. Cody will attend meetings of the County Boards of Supervisors, City Councils, governmental agencies and other civic groups throughout his District as needed and by doing so, will keep him promptly apprised of local problems thus facilitating his understanding of problems within his District.

"Buff" Cody is retired from the Army, having formerly served as Public Affairs Officer for Fort Ord and the Eighth U. S. Army.

He recently served as a Trust Officer for the Bank of America in Salinas.

For the past nine years Mr. Cody and his wife Jean have made their home on the Monterey Peninsula. They now live in Carmel Valley.

He is a member of the Sports Car Racing Association Monterey Peninsula (SCRAMP) and has been active in the Seaside Lions Club for several years.

Mr. Cody will be headquartered in Congressman Talcott's district office in the Post Office Building in Salinas.

through January 29.

In emphasizing that new home furnishings are right in step with today's freedom of self-expression, Battle said that the still popular Mediterranean and traditional styles like French, Italian and Early American also have new design features, adapted to today's needs.

Among other new furnishings Battle expects to view at this market are movable seating designs; and electrically operated recliner with fingertip adjustment; a sleek day-bed framed in a seamless mold of fiber glass and wall storage units that are only 56 inches high, especially suitable in most apartments and smaller houses, with low ceilings.

"Fabrics, lamps and accessories have the ingredients to splash a room with light, form and color, and reports indicate this market will provide a broad array," Battle said.

He also will see new floor coverings, including a first in polyester carpeting, of luxury weight, a 6-color, slag and other new patterns in bold as well as neutral colors.

Battle will join more than 10,000 buyers who will shop 459 showrooms during the Mart's week-long trade event.

Deadline

Monday, February 1, is the deadline date for filing a contribution return and report of disability insurance wages, form DE 7003, for the fourth quarter of 1970, R.B. Applegate, Auditor in Charge for the State Department of Human Resources Development in Monterey reminds employers of agricultural employees and nonprofit district hospital employees.

Penalty and interest will be charged if the report is filed after the deadline, Applegate said.

Employers who need help in preparing their returns and wage reports may contact R.B. Applegate at 474 Webster Street, Monterey or telephone 373-0143.

If a Legislator or representative of the people takes no real stand on the major issues facing all of us today, I feel that he is attempting to perpetuate himself in office. I would rather attempt to study all the facts, make my decision and, if in the majority of the cases, my views from that of the people, then my days as your Assemblyman will be numbered and justifiably so.

Recently you heard the Governor's State of the State message mention that some reforms and changes are needed in our tenure system pertaining to our teachers. I have differed with the Governor on several issues in the past and will probably differ with him from time to time in the future.

Tenure is one area I agree that some form of change is needed. Under the tenure system if a teacher has taught for three years, he is automatically given job security for the rest of his teaching career in that particular school district.

The law under its original intent was good. There were cases where school boards would dismiss a good teacher after three or four years just because they could hire a new one just of college for less money, thereby saving the school district a few dollars on teacher's salaries. This was wrong; I think we all realize this and the tenure law was adopted to protect the teachers from this unscrupulous practice.

But even good laws that are created to correct certain infractions sometimes have a way of creating new infractions and this is what I feel has happened with the tenure law. Today many people feel we have certain teachers, not many, but a few, who are known to be inadequate in the eyes of the Superintendent, the School Board, fellow teachers and would ever be judged poor in the eyes of the students themselves.

School representatives inform me that there are laws today to allow a Superintendent

to dismiss such teachers after they have been on tenure. However, I was fortunate enough to have had the privilege to serve on a small community School Board for almost ten years and I'm willing to bet a dollar to a doughnut that the number of teachers that have been dismissed after receiving tenure in all of Monterey County I could count on the fingers of my left hand.

What other walk of life offers this security? If a man or woman does not measure up today on any job, union or non-union, he or she is dismissed.

If a farmer can't operate efficiently, the bank will withdraw his credit and someone else takes over the land.

If a legislator is not conscientious in representing his District, the people can vote him out of office.

Teachers should have the same rules.

I don't believe and I don't feel the Governor believes that we should do away with the entire tenure system. I am convinced that most parents and students would ap-

Horse Drug Is Approved

With the recent opening of Santa Anita race track, California became the third and largest state to approve the controlled use of the drug Butazolidin for horses in parimutuel races.

The other two states which

prove of a compromise measure that would allow the screening body of the elected School Board the right to review and screen each individual teacher, after a fair hearing, every five years or so, I honestly feel (and I may be wrong) that the majority of our teachers would approve such a plan, as the average teacher and the better than average teacher would have no reason to fear such a procedure.

I personally feel that such a screening body should include some representatives from the teachers themselves and possibly some student representative. After all, I am sure when we were students all of us rated our teachers each in our own individual way.

allow the use of Butazolidin are Nebraska and Colorado. The drug has been used with considerable success in these states over a period of time.

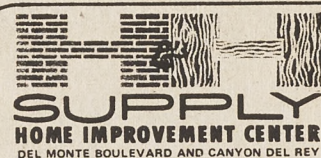

When passing the measure allowing the use of this drug, the California horse racing board took into consideration the fact that Butazolidin is not a drug in the usual sense of the word. It is neither a stimulant nor a depressant. Rather, according to Dr. Alan H. Edmondson, it's a "super aspirin."

Edmondson will supervise the Santa Anita race program as the official track veterinarian representing the horse racing board.

He says that the drug simply eases various types of arthritic aches and pains.

Edmondson explained that the use of the drug will be carefully controlled by a strict chain of responsibility. The trainer must register a Butazolidin horse and certify he is raceably sound before use of the drug is allowed.

The vet who treats the stable must see that the drug is administered at the proper time

SIZABLE - There's more than meets the eye in Volkswagen's 1971 Squareback Sedan--more than 50 cubic feet of luggage capacity when both front-end trunk and rear-end cargo area are used. New flow-through ventilation system with two-speed blower keeps fresh air moving through even with windows closed. Also standard is electronic fuel-injection engine.

Bad Weather Toyota Sales Calls For Alertness

Both motorists and pedestrians need to be extra alert during the bad weather days of winter, reminds the California State Automobile Association. The motoring organization points out that drivers have less control of their cars in rainy and icy weather as rain doubles a car's stopping distance, snow triples it and ice can multiply it ten times.

The CSAA also points out that other physical factors are important, particularly visibility. Sometimes drivers cannot see because of dirty windshields and pedestrians often endanger themselves by blocking their vision with cumbersome scarves and umbrellas which only compound the problem.

In bad weather most people hurry to get out of the cold or rain and to their destination. This can create a careless attitude on the part of both pedestrian and the motorist.

Alert walking and driving are particularly important this time of year. As part of the AAA's nationwide school traffic safety education program a poster illustrating the dangers of bad weather is being distributed to schools in all parts of the country.

Best Tires Belong on Rear Wheels

Since the introduction of the Corona model line of economy passenger cars to the California motoring public in June, 1965, Toyota sales have had a rapid and sustained growth.

In five years on the market, Corona sales in California rose from 2,480 in 1966 to 45,307 in 1969. When the Corona was introduced in this State, the retail dealer network, which sold primarily the company's rugged four-wheel drive Land-Cruiser line.

Receives Medal

Sergeant Edward R. Yandall Jr., 22, whose parents live in Monterey, recently received the Army Commendation medal while serving with the 21st signal group near Nha Trang, Vietnam.

Sgt. Yandall earned the award for meritorious service as a teletype operator with headquarters detachment of the group.

The sergeant entered the Army in April 1969 and completed basic training at Ft. Leonard Wood, Missouri. He attended Monterey Peninsula Junior College.

Best Tires Belong on Rear Wheels

Most drivers put their best tires on their front wheels in the belief that better control is thereby provided in case of blowout or skid.

However, a recent survey by the Office of Vehicle Systems Research of the National Bureau of Standards says "there is strong evidence that it is safest to have one's least worn tires on the rear axle. Loss of rear wheel traction on curves and rear wheel lockup in panic stops are major contributors to accidents."

Other conclusions, as presented in a technical 50-page pamphlet entitled "Tire Use Survey: The Physical Condition, Use and Performance of Passenger Car Tires in the United States of America," are the following:

NEW LAW

The New Hunter Safety Law that becomes effective in California June 1, 1971, makes it mandatory that all hunters, regardless of age, will have to present proof of previously held a California hunting license before purchasing new hunting licenses. Otherwise, the person must have a hunter safety certificate of competence. Previously the law applied only to persons 18 years of age and under.

Nearly Identical Plans Emanate From 2 Groups

Plans have been recommended by two nationwide insurance associations to provide payment for bodily injuries no matter who is at fault in an accident. However, insurance companies could seek reimbursement out of court from the negligent driver's insurance company.

One plan, proposed by the American Mutual Insurance Alliance, is called the Guaranteed Protection Plan. The other, announced by the National Association of Independent Insurers, is termed the Dual Protection Plan. The two are nearly identical. The associations recommend that state laws be altered to require every policyholder to have a minimum coverage of \$2,000 for medical

expenses and \$6,000 for disability income.

This way, in an accident, the policyholder and anyone covered by the policy would be able to get immediate payment of claims, even if the policyholder is at fault for the accident.

The difference between this and the "no fault" insurance proposals, which the industry has opposed, is that insurance companies can seek reimbursement out of court from the negligent driver's insurance company.

According to Paul S. Wise, president of the Insurance Alliance, "this would eliminate long court delays in payments."

He added that his group felt that this plan was in the best

Fewer Cars, Trucks Built

New car production in the United States fell off to 6.55 million units in 1970, according to Ward's Automotive Reports.

This is 1,669,463 less than in 1969 and is the lowest number produced in this country since 1961, when 5,516,317 autos were built, says the trade publication.

Ward's attributed the decline, in part, to the 67-day United Auto Workers strike against General Motors Corporation. 1970 GM production was almost 1.5 million units less than in 1969.

Interest of the public. It combines the sound features of all current auto insurance reform proposals, he said, while retaining the fundamental liability principle that negligent drivers are financially responsible.

LEGAL NOTICE

SUPERIOR COURT OF CALIFORNIA, COUNTY OF MONTEREY. 1200 Aguia Road, Monterey, California 93940

In re the marriage of
Petitioner: JIN SOOK LASH
Respondent: MAX E. LASH

CASE NUMBER: NDR 460
SUMMONS (MARRIAGE)

To the Respondent:

The petitioner has filed a petition concerning your marriage. You may file a written response within thirty days of the date that this summons is served on you. If you fail to file a written response within such time, your default may be entered and the court may enter a judgment containing injunctive or other orders concerning division of property, spousal support, child custody, child support, attorneys' fees, costs, and such other relief as may be granted by the court.

If you wish to seek the advice of an attorney in this matter, you should do so promptly so that your written response, if any, may be filed on time. Dated: December 10, 1970.

I GIVE ADVISE ON BUSINESS, MARRIAGE AND LOVE AFFAIRS

Bring your problems to me — I will help you solve them

I will tell you just what you want to know about your friends, enemies and rivals, whether your husband, wife, sweetheart is true or false, how to gain the love of one you most desire, control or influence the action of anyone, even though miles away.

I give never failing advice upon all matters of life, such as love, courtship, marriage, divorce, business transactions of all kinds. I never fail to unite the separated, cause speedy and happy marriages, overcome enemies, rivals, lovers' quarrels, evil habits, stumbling blocks and bad luck of all kinds. There is no heart so sad or home so dreary that I cannot bring sunshine into it. In fact, no matter what may be your hope, fear or ambition, I guarantee to tell it all before you utter a word to me.

LEGAL NOTICE

NOTICE OF INTENTION TO CIRCULATE PETITION FOR RECALL OF STEPHEN E. ROSS FROM THE OFFICE OF COUNCILMAN OF SEASIDE, CALIFORNIA.

To: Mr. Stephen E. Ross
1029 Soto Street
Seaside, California 93955

NOTICE IS HEREBY GIVEN by the undersigned Epifanio Cruz and Albert J. Lioi, proponents of the intention to circulate, among the registered and qualified voters of the City of Seaside, State of California, a petition for the signature of said voters, showing their approval that procedure be taken as provided by law in such cases for the recall and removal of Stephen E. Ross from the position of Councilman, in the City of Seaside, State of California, said recall petition to be circulated at a date commencing seven days after the publication of this notice, as required by statute, or as soon thereafter as is practicable.

Notice is hereby further given that the grounds for the removal of said Stephen E. Ross from said office are as follows:

Mr. Stephen E. Ross' irresponsible actions in office have resulted in the people of Seaside being justifiably ashamed. He has repeatedly attacked the motives and performance of dedicated employees of the City, with the result that morale has been seriously hurt. He has joined with other Council members to make a farce of City Council meetings, ignoring the fact that this was doing tremendous harm to the image of the City and tearing down Seaside's reputation, which has been building for many years. He has participated with other Councilmen in decisions which appear to have been made prior to meetings, which would be in violation of at least the spirit, and perhaps the letter of the Brown Act, which forbids such actions. Repeatedly, he has voted to prevent the Presiding Officer from maintaining order and decorum at City Council meetings. He is directly responsible for the fact that these meetings are now ridiculed as "three ring circuses". His irresponsibility has brought the prestige and reputation of Seaside to a low ebb. He voted to allow the "Seaside 19" protestors to make a shambles of Council meetings with foul-mouthed and vindictive personal attacks on the Mayor and all law enforcement authorities, but then refused to allow any hearing whatsoever before firing the City Attorney without cause, after almost 16 years of service to the City. His actions appear to "turn back the clock" by replacing employee security with a system of political patronage and personal loyalty to council members. If the merit system is thrown out, every employee of the city is affected and harmed.

It appears as though he has joined with other Council members in "rewarding" his political supporters with his votes, placing public interest in an inferior position. In doing this he has ignored and disregarded the laws of the City, which he himself vowed to place himself. He has been charged with using OEO government funds to further his 1970 campaign.

In making Seaside the object of shame and derision, he has shown himself unqualified to hold position of public trust.

January 21, 1971

REPLY TO NOTICE OF INTENT TO CIRCULATE PETITION FOR RECALL OF STEPHEN E. ROSS, DATED January 15, 1971.

To: Mr. Epifanio Cruz
1845 Eucalyptus Avenue
Seaside, Ca. 93955

& Mr. Albert J. Lioi
2060 Baldwin Court
Seaside, Ca. 93955

Your letter of January 15, 1971 has been received, and this is my reply.

I refute the charges, brought against me, as misrepresentation of the facts. In fact, I consider some of your statements to be libelous.

Contrary to the allegations, the records will show that I have served the City of Seaside diligently, honestly, and with all my being. The records (tapes) will also show that I have worked for dignity and decorum during Council sessions, recommending the development and adoption of a manual of procedures. The manual has been developed and adopted. The record will show that I work for the democratic right for citizens to be heard, including the right to bring these charges against me. The records will also show that I serve the Anti-Poverty Council (OEO program with equal dedication). We have periodic audits and an additional independent audit, once per year. Our records are open for inspection at any time by the public.

Seaside is making progress under this Council. We have given the City a strong police force with special authorization to strengthen the deterrent. We have houses for low income citizens being built faster than ever before. The small business man has more confidence that he has a stake in his City. The average and low income citizens feel that he has voice in our government, (which may be called something new). There has been less violence this year than the last three years. We will soon have a Recreation Department, including a Director and a new community park. The foundation is being laid to create more jobs in the area by bringing in more business. Having worked for incorporation of Seaside, over six and one-half (6-1/2) years on the Council, (three as Vice-Mayor), with three (3) different Mayors, the record will show that I worked for those things which brought our City the awards achieved this year. The record will also show that I went further, and worked for the PEOPLE (human) of our city.

Although it is far from perfect, I am PROUD of my record of public service to Seaside. I am proud to serve with my fellow Councilmen (including the Mayor). I am proud to live and work with people of goodwill. With their support, we shall continue.

Sincerely,
s/STEPHEN E. ROSS
COUNCILMAN, City of Seaside

NOTICE OF INTENTION TO CIRCULATE PETITION FOR RECALL OF PEARL M. CAREY FROM THE OFFICE OF COUNCILMAN OF THE CITY OF SEASIDE, CALIFORNIA.

To: Mrs. Pearl M. Carey
1231 Olympia Avenue
Seaside, California 93955

NOTICE IS HEREBY GIVEN by the undersigned Epifanio Cruz and Albert J. Lioi, proponents of the intention to circulate, among the registered and qualified voters of the City of Seaside, State of California, a petition for the signature of said voters, showing their approval that procedure be taken as provided by law in such cases for the recall and removal of Pearl M. Carey from the position of Councilman, in the City of Seaside, State of California, said recall petition to be circulated at a date commencing seven days after the publication of this notice, as required by statute, or as soon thereafter as is practicable.

Notice is hereby further given that the grounds for the removal of said Pearl M. Carey from said office are as follows:

In 1966, Mrs. Carey listed \$1,018.00 as anonymous contributions to her campaign. Her campaign financial statement for 1968 apparently was not filed. Her 1970 campaign statement lists \$796.00 as anonymous contributions. The state law requires candidates to file campaign statements and disclose all names of contributors.

She has failed to attend meetings of organizations where she was the designated representative of the city, such as the Monterey Peninsula Area Planning Commission.

She has joined with other council members in ignoring the advice of the staff and the legal advice of the City Attorney. As a result her actions, the city is now a defendant in a lawsuit. She has contributed, through her actions, to making Seaside a laughing-stock throughout the State.

She has repeatedly attacked the motives and performance of dedicated employees of the city, with the result that morale has been seriously hurt. She has participated with other Councilmen in decisions which appear to have been made prior to Council meetings, which would be in violation of at least the spirit, and perhaps the letter of the Brown Act, which forbids such actions.

Repeatedly, she has voted to prevent the Presiding Officer from maintaining order and decorum at City Council meetings. By her actions, she has contributed to making Seaside's City Council meetings being referred to as "three ring circuses".

She has voted to overrule unanimous Planning Commission and staff recommendations. She voted to discharge the City Attorney, then subsequently voted to retain another for the same fees, whose health will not permit him to try court cases. On November 5, 1970, she voted to hire an additional two attorneys to assist him, which may cost Seaside taxpayers an additional \$10,000.00.

She has voted to amend or repeal the very laws which were instrumental in Seaside's progress. She totally ignored the voters mandate to acquire the "Pit" by voting against finalizing the contract.

In view of all of the above, she has cast serious doubt upon her integrity and has shown herself unqualified to hold a position of public trust.

January 15, 1971.

Epifanio Cruz
1845 Eucalyptus Avenue
Seaside, California 93955

Albert J. Lioi
2060 Baldwin Court
Seaside, California 93955

RECEIVED OFFICE OF CITY CLERK SEASIDE, CALIFORNIA "71, Jan. 22/ 2:14 P.M.

Epifanio Cruz
1845 Eucalyptus Avenue
Seaside, California 93955

Albert J. Lioi
2060 Baldwin Court
Seaside, California 93955

Answer to notice of intention to circulate petition for recall.

I, Pearl M. Carey, the undersigned, in accordance with the Election Laws of the State of California submit the following:

The most appropriate answer and explanation for this new recall was written by the Monterey Peninsula Herald, January 19, 1971. Quote "The persistence of those who keep initiating new recall campaigns suggest that this is exactly what the Mayor and his supporters want - rather than a 'fair shake' for the people of Seaside. After all, what does the Mayor have to lose?"

If there is a recall election, and the four incumbent Councilmen are returned to office, he is not voting off to himself. If, on the other hand, one or more of the incumbents happen to lose out, the Mayor has got his way to that extent.

And if a new Council is made up of majority of mayoralty yes-men, is the city of Seaside better off for having unanimity of opinion in its governing body instead of a free play different opinions?

Does Seaside's city government have room for only one point of view? It would seem more desirable to want a recall of the Mayor and Council were one of him and mind and ran the city the way they wanted, to the exclusion of everyone else.

PEARL M. CAREY

NOTICE OF INTENTION TO CIRCULATE PETITION FOR RECALL OF GERALD A. MCGRATH FROM THE OFFICE OF COUNCILMAN OF SEASIDE, CALIFORNIA.

To: Mr. Gerald A. McGrath
1855 Lincoln Street
Seaside, California 93955

NOTICE IS HEREBY GIVEN by the undersigned Epifanio Cruz and Albert J. Lioi, proponents of the intention to circulate, among the registered and qualified voters of the City of Seaside, State of California, a petition for the signature of said voters, showing their approval that procedure be taken as provided by law in such cases for the recall and removal of Gerald A. McGrath from the position of Councilman, in the City of Seaside, State of California, said recall petition to be circulated at a date commencing seven days after the publication of this notice, as required by statute, or as soon thereafter as is practicable.

Notice is hereby further given that the grounds for the removal of said Gerald A. McGrath from said office are as follows:

Mr. McGrath has voted on several occasions in favor of applicants who contributed financially to his campaign. He listed these businessmen from the "Pit" as signatories to his 1970 nomination papers and repaid them by voting against a trade whereby the city acquire the property. This action was a direct slap in the face to the people who voted to complete this trade. He listed hundreds of dollars of campaign contributions anonymously, which is a violation of the state law.

On August 6, 1970 Mr. McGrath, a former Real Estate salesman, sponsored legislation repealing the Real Estate Disclosure Act, which requires seller of real property to divulge to prospective buyers deficiencies, easements, zoning, etc. He has voted to amend or repeal the very laws which have been instrumental in Seaside's progress. He has constantly interrupted the progress of Council meetings by referring to insignificant technicalities, thereby creating a shambles of the meetings. He has requested a personal vendetta against the Mayor, and this has been reflected in his actions during regular Council meetings. His voting record and other actions at Council meetings reflect further his personal vendetta against the Mayor, and his attempted appointment to the city's various boards and commissions.

LEGAL NOTICE

He has joined with other Council members in conduct which has made Seaside a laughing-stock throughout the State. He called for a special Council meeting to consider cancelling the citizens council the "Seaside 19", most of whom are not residents of Seaside, and who have violated the laws of our city.

He has participated in actions which directly overruled unanimous Planning Commission and staff recommendations. He voted to discharge the City Attorney, then subsequently voted to retain another for the same fees, but one whose health will not permit him to try court cases. On November 5, 1970, he voted to hire an additional two attorneys to try court cases, which may cost Seaside taxpayers an additional \$10,000.00. Had the Council not discharged the original attorney, this additional expenditure would not have been necessary. These irresponsible actions cast serious doubt upon his integrity and judgement and has shown him to be unworthy of the trust and confidence of the people.

January 15, 1971

s/Epifanio Cruz
1845 Eucalyptus Avenue
Seaside, California 93955

s/Albert J. Lioi
2060 Baldwin Court
Seaside, California 93955

In reply to the statements listed in the recall notice dated January 15, 1971 by Mr. Epifanio P. Cruz and Mr. Albert J. Lioi, I state the following:

The contents of the notice are laced with half truths, innuendoes and outright lies.

The people who signed my nomination are unknown to me because I did not circulate the nomination papers. If the Pit trade can be proven to be a profitable financial venture, I will vote for the trade. If we now go ahead with the trade, the city will have to find loaned money or else make the note payments out of the city treasury.

The hundreds of dollars of my campaign contributions which were referred to as my anonymous were in reality listed on my campaign statements as fifty dollars. The Mayor listed two hundred and eighty dollars as anonymous.

The Real Estate Disclosure Act which I insist on proposing to the council for change is an unfair law. The zoning law now states that if a person owns a house with a one-car garage it is not to be sold before they sell their house before they can terminate the transaction, they must take the prospective buyer to the city hall and sign a statement of non-conforming.

The U.S. Congress is reforming and changing as is the Seaside City Council. The people are demanding that elected officials retain control of the city and not to give it to one-man rule.

I, nor any other member of the council called for a meeting to cancel the citations, the Seaside 19. We did, however, call for both the Seaside 19 and the Chamber of Commerce Parade Committee to appear before the council but never got around to this item.

The fact that the council overrules decisions of the Planning Commission only proves that both sides are human. The city council has for many years overruled some of the decisions of the city commissions.

The firing of the part time city attorney was within the prerogative of the council. For the Council to work as a governing body, it is essential that they be allowed to select or discharge their own attorney at any time and for any reason that the council majority thinks sufficient. Since under responsibility for all that takes place in the city government rests with the council, this body is assigned the job of selecting those with whom they wish to work.

Mr. Lioi and Mr. Cruz have openly collaborated with the Mayor in actions that have harassed, blackmailed, and threatened this council since we took office.

The real issue behind this recall movement is whether the council is entitled to an attorney of its own selection or must it accept the Mayor's personal attorney for the city attorney.

The voters must ask themselves what crimes have the Seaside Council members committed. Arguments, different views, new people for city commissions, etc. Is not this the process of government? Would you feel safer if we went in the back room and discussed your government?

This new recall attempt has been called a farce by prominent people and it should be treated as such. One man, the mayor and his cronies should not be allowed to keep our fair city in turmoil.

NOTICE OF INTENTION TO CIRCULATE PETITION FOR RECALL OF OLIVER F. MURRAY FROM THE OFFICE OF COUNCILMAN, CITY OF SEASIDE, CALIFORNIA.

To: Mr. Oliver F. Murray
2055 Lassen Street
Seaside, California 93955

NOTICE IS HEREBY GIVEN by undersigned Epifanio Cruz and Albert J. Lioi, proponents of the intention to circulate, among the registered and qualified voters of the City of Seaside, State of California, a petition for the signature of said voters, showing their approval that procedure be taken as provided by law in such cases for the recall and removal of Oliver F. Murray from the position of Councilman, in the City of Seaside, State of California, said recall petition to be circulated at a date commencing seven days after the publication of this notice, as required by statute, or as soon thereafter as is practicable.

Notice is hereby further given that the grounds for the removal of said Oliver F. Murray from said office are as follows:

Mr. Oliver F. Murray has allowed his personal political ambitions to be more important than the welfare of Seaside. He has failed to attend meetings of organizations where he was the designated representative of the city, such as AMBAQ and the Monterey Peninsula Anti-Poverty Coordinating Council. He has failed to attend agenda meetings, study sessions and budget study meetings of the City Council. As a result, he has been uninformed on the business of the city and this has been reflected in his votes and his public statements.

His votes and conduct at Council meetings have reflected vindictiveness and a personal motive for revenge. He has joined with other council members in conduct which has made Seaside a laughing-stock throughout the State. As a result of this conduct, Seaside City Council meetings have been labeled derisively as "three ring circuses".

He has conducted a personal vendetta against the Mayor and ignored or refused the legal advice of the City Attorney. As a result of his actions, the City is a defendant in a lawsuit. He has been seen publicly speaking, as though in a confidential manner, with defendants in the "Seaside 19" case, most of whom are not residents of Seaside, who have allegedly violated laws of our city. He was a signatory to a petition calling for a special Council meeting to discuss nullifying citations issued the "Seaside 19".

His voting record on the council reflects, in many instances, repayments of political debts, financial and otherwise. His employment in another part of the State makes him unavailable to perform his elected duties in Seaside.

In summary, he has sought to use Seaside for his own political gain and to satisfy his own ambition. He has shown himself to be irresponsible and not worthy of the trust and confidence of the people.

NOTICE OF INTENTION TO CIRCULATE PETITION FOR RECALL OF LOUIS N. HADDAD FROM THE OFFICE OF MAYOR OF THE CITY OF SEASIDE, CALIFORNIA.

To: Mr. Louis N. Haddad
2050 Lassen Street
Seaside, California 93955

NOTICE IS HEREBY GIVEN by the undersigned Epifanio Cruz and Albert J. Lioi, proponents of the intention to circulate, among the registered and qualified voters of the City of Seaside, State of California, a petition for the signature of said voters, showing their approval that procedure be taken as provided by law in such cases for the recall and removal of Louis N. Haddad from the position of Mayor, in the City of Seaside, State of California, said recall petition to be circulated at a date commencing seven days after the publication of this notice, as required by statute, or as soon thereafter as is practicable.

Notice is hereby further given that the grounds for the removal of said Louis N. Haddad from said office are as follows:

Mayor Louis N. Haddad has frequently voted at odds with the other four members of the City Council since the general election about eight months ago. He has justified his position by stating that he received the highest vote of any candidate in that election and that he felt that he had a mandate of the people to carry out programs which he promised to work for. His attempts to provide leadership have instead resulted in opposition from the other four Councilmen and no action on these programs.

The people should have the opportunity to vote on the question of whether he, or the other Councilmen are correct in assuming that they have the support of the people of Seaside.

ANSWER TO NOTICE OF INTENTION TO CIRCULATE PETITION FOR RECALL OF LOUIS N. HADDAD FROM THE OFFICE OF MAYOR

TO: Epifanio Cruz and Albert Lioi

The records clearly show that the charges against me are well founded. I have voted frequently at odds with the majority of the Council. I voted for the "Pit" swap after the people by a majority vote made their desires known. I opposed cancelling citations issued the "Seaside 19" at a Council meeting which other members of the Council called especially for that purpose. I opposed repealing the Real Estate Disclosure Act. I voted against granting special privileges to applicants who appealed Planning Commission decisions to the Council. I opposed location of the Post Office in the City of Seaside.

I opposed systematic removal of dedicated people from our City Commissions. I voted against hiring two additional attorneys for approximately \$5,000 to defend the city in court actions which a regularly appointed City Attorney normally handles. I strongly opposed phasing out the Community-School Program. I voted against a 10% increase in the city property tax.

I assume that these actions constitute "voting at odds". I believe in the right of the people to express their approval or disapproval of their elected officials' performances, if that is their desire.

I am not fearful of a special election, and I can't understand why my fellow Councilmen. Perhaps an election will clear the air, and provide the vehicle which will redirect Seaside in the direction of progress.

s/ Louis N. Haddad

HONORED - Sergeant First Class Edmundo Ramos, student of Italian at Defense Language Institute, West Coast Branch, Presidio of Monterey, receives First Oak Leaf Cluster to Bronze Star with Valor Device from Captain Richard G. Cannon, commanding officer, Company B.

MAP FLAP - All off-duty conversation for last six weeks at Defense Language Institute has seemed to revolve around 9 x 15 foot map of Arab World by Private First Class Kimbal Ferris (left) student of Arabic at DLWC and his friend, Specialist 4 Niccolo Rieti. They painted topographical and political map for wall of Multi-Purpose Room in basement of Arabic Building, DLWC.

VA Training State Funds For Clergy Distributed

Veterans Administration hospital training designed to help clergymen deal more effectively with problems of the sick will be conducted for the fourth consecutive year at three VA hospitals Bedford, Massachusetts; Houston; Texas and Martinez, California.

Paul O. Battisti, Director of the Veterans Administration Hospital in Martinez, said the Houston program begins June 1, 1971 and runs for twelve months, while the other two programs will start September 1, 1971 and continue for nine months.

Basic requirements for admission include the BA or BD degrees or their equivalents and three years of experience as a minister, priest or rabbi.

"All of the programs are inter-faith and are affiliated with graduate schools. Graduates of the program have found their places of service in local parishes, institutional chaplaincies, health centers and as teachers of other clergymen," he added.

The deadline for applications is March 31, 1971. Additional information and application forms can be obtained by writing: Director, Chaplain Service (124), Veterans Administration, Washington, D. C. 20420.

State Controller Houston L. Flournoy has distributed \$76,027.42 from the General Fund to reimburse the State's counties, cities, school districts and special districts for tax income losses resulting from the State-mandated Homeowners Property Tax Exemption for the 1970-71 fiscal year.

The payment represented 35 percent of claims for reimbursement totaling \$217,221, 178.

Another \$444, 508 was distributed to those counties and cities qualifying for adjustments to the reimbursements made for the preceding fiscal year of 1969-70.

The balance of the 1970-71 reimbursement will be paid on or before April 30, the controller said.

License Fees Distributed

California's cities and counties have shared \$23,333, 241 in the first apportionment of motor vehicle license fees for Fiscal Year 1970-71, State Controller Houston I. Flournoy reported recently.

Covering the six-month period ending last November 30, the money was divided evenly between cities and counties with distribution among individual cities and counties proportionate to population. The allocation represented slightly over 75 cents for each city resident and almost 60 cents for each county resident, Flournoy said.

This was the first of three apportionments to be made during the 1970-71 fiscal year, the Controller said.

Apportionments next April and June will be larger since the bulk of the fees are collected during January and February of each year.

The State excise tax at the rate of \$2 per \$100 of market value takes the place of local property tax on motor vehicles. The money is returned to local governments except for that portion with-

held to cover administrative costs.

Distribution among the cities and counties was based on the 1960 Federal census as adjusted to reflect new incorporations, annexation, special censuses and State Department of Finance estimates.

Certification of the population of the cities and counties in California as a result of the 1970 Federal census has not yet been received.

Monterey County's share of this initial 1970-71 apportionment was \$147,806.05. Cities in this area received the following amounts:

Seaside - \$29,882.87; San City \$392.24; Monterey \$20, 517.32; Del Rey Oaks \$1,483, 73; Pacific Grove \$10,942, 07 and Carmel 3, 574, 69.

Bank Offers Cash Awards

Local high school seniors are now embarking upon a long trail winding to a possible cash award of \$1,000.

That's the top prize in Bank of America's annual Achievement Awards competition, according to Regional Vice President James B. Wiesler.

Wiesler, who is in charge of all bank branches in Monterey, San Benito, Santa Clara and Santa Cruz Counties, said: "This year will see the bank presenting \$164,070 in no-strings-attached cash awards to high school students throughout the state. The bank will also present 8,200 certificates and 2,600 plaques this spring."

Skimming off the cream of the cash awards, top prizes of \$1,000 will be awarded to 40 seniors in four different study fields at 10 non-competing divisional events in May. Finalists at these events will first advance through local and regional competition.

Wiesler added that this is the 24th year of the annual program which is designed to honor outstanding high school seniors "whose scholastic attainment, sense of civic responsibility and evidence of leadership give most promise of future success and service to society."

The program also seeks to "stimulate and encourage high school students in their academic, vocational and citizenship training."

Opening in New York on November 8, 1939 "Life With Father" ran 3,213 consecutive performances and was played on the road by nine separate touring companies. It has been acted more widely than any American play since "Uncle Tom's Cabin".

Performances are at 8:30 p.m. on Fridays and Saturdays and at 7:30 p.m. on Sundays at the Circle Theatre, Casanova between 8th and 9th, Carmel.

Reservations may be made to P.O. Box A L, Carmel or by phone to (408) 624-2669.

Finishes Training

Marine Pvt. James W. Crampton, son of Mr. and Mrs. James E. Crampton of Marina, was graduated from basic training at the Marine Corps Recruit Depot at the Marine Corps, Base, San Diego.

Crampton is a 1969 graduate of Seaside High School.

TOP IN HER CLASS - Colonel Kibbey M. Horne, commandant, Defense Language Institute, West Coast Branch, shows Major Jo Ann De Lora student of Chinese-Mandarin, The Commandant's Award trophy on which her name will appear as first woman to receive highest award given at DLIWC. Major De Lora received engraved wristwatch as recognition of her outstanding academic achievement.

Localite's Unit Receives Commendation

Staff Sergeant Erich Bailey, son of Mr. and Mrs. Edward H. Bailey of Seaside, is a member of the Eglin AFB, Florida, squadron that has received the U.S. Air Force Outstanding Unit Award for exemplary performance in operating the Free World's first "space age" radar system.

Sergeant Bailey, a telephone equipment repairman with the 20th Surveillance Squadron, will wear a distinctive ser-

vice ribbon to mark his affiliation with the unit.

Squadron personnel maintain and operate a gigantic 13-story radar that performs the functions of many radars nearly simultaneously and is the first designed specifically for detecting and tracking satellites and ballistic missiles. The 20th was cited for distinguished service in installing, testing and subsequently operating the facility

as part of the Aerospace Defense Command's frontline defense system.

Sergeant Bailey has completed a year of duty in Vietnam.

He is a 1964 graduate of Monterey High School. His wife, Sally, is the daughter of Mr. and Mrs. Tom Dimercurio of Monterey.

ADVERTISE IN THE POST!

OBITUARIES

Mary F. Gruber Burdett of Seaside, January 17, 1971, wife of Robert Burdett; mother of Arthur Vidal and Jacqueline Hollingsworth both of Sacramento; Virginia Hines of Monterey; Debbie Gibson of Arizona; daughter of Mary Dry of San Antonio Texas; sister of Thesra Proulx of Manteca and Ethel Cohan of San Antonio, Texas; grandmother of eight grandchildren.
